# SAFEGUARDING AND CHILD PROTECTION POLICY

*Jeremiah 29:11*

*'For I know the plans I have for you, declares the LORD, plans for welfare and not for evil, to give you a future and a hope.'*

Academy Representative responsible for Safeguarding:	Cecilia Hubble
Designated Safeguarding Lead:	Peter Foley
Deputy Safeguarding Lead:	Claire Bird
Prevent Lead:	Peter Foley
CSE Lead:	Claire Bird
Designated Teacher for Looked After and Previously Looked After Children:	Peter Foley

## 1. Introduction

St Augustine's Catholic High School fully recognises the contribution it can make to protect and support pupils in School. The aim of this policy is to safeguard and promote our pupils' welfare, safety, health and well-being by creating an honest, open, caring and supportive environment. All children are created in the image of God and deserve their dignity to be respected and protected. This policy upholds the Catholic Church teaching that each person is a unique creation of God and is loved, willed, necessary and has a purpose – therefore the pupils' welfare is of paramount importance and it is the duty of all staff to safeguard.

- 1.1 This policy has been developed in accordance with the principles established by the Children Acts 1989 and 2004; the Education Act 2002; and in line with government publications: the Teachers' Standards 2012, 'Working Together to Safeguard Children' 2018 and 'Keeping Children Safe in Education' September 2020.
- 1.2 Saint Augustine's Catholic High School fully recognises its moral and statutory responsibilities for safeguarding and promoting the welfare of children. Safeguarding and promoting the welfare of children is defined for the purposes of this guidance as:
  - protecting children from maltreatment;
  - preventing impairment of children's mental and physical health or development;
  - ensuring that children grow up in circumstances consistent with the provision of safe and effective care; and
  - taking action to enable all children to have the best outcomes.

Children includes everyone under the age of 18.
- 1.3 Our policy applies to all staff (including supply staff), governors and volunteers working in the school.
- 1.4 There are five main elements to our policy:
  - Ensuring we practise safer recruitment in checking the suitability of staff

- Raising awareness of child protection issues and equipping children with the skills needed to keep them safe;
  - Developing and then implementing procedures for identifying and reporting cases, or suspected cases, of abuse;
  - Supporting pupils who have been identified as in need of early help or at risk of harm in accordance with his/her agreed Child Protection, Child in Need or Early Help plan;
  - Establishing a safe environment in which children can learn and develop.
- 1.5** We recognise that because of the day-to-day contact with children, school staff are well placed to identify concerns early and to observe the outward signs of abuse. The school will therefore:
- Establish and maintain an environment where children feel safe, secure, valued and respected and are encouraged to talk, believing they will be listened to;
  - Ensure children know that there are adults in the school who they can approach if they are worried;
  - Include opportunities in the curriculum, specifically through PSHE and ICT, for children to develop the skills they need to recognise and stay safe from abuse and to know who they should turn to for help.
- 1.6** We seek to ensure that the child's wishes and feelings are taken into account when determining what action to take and what services to provide to protect children from harm. To this end we will:
- Ensure there are systems in place for children to express their views and give feedback e.g. through school/class councils, safety questionnaires, participation in anti-bullying and e-safety events;
  - Ensure that the child's thoughts/wishes and feelings are sought and recorded on all referrals.
- 2 Procedures**
- 2.1** We will follow the West Midlands Safeguarding Procedures as required by the Worcestershire Safeguarding Children Board (WSCB) and take account of guidance issued by the Department for Education (DfE).
- 2.2** The school will:
- Ensure it has a senior leader nominated as Designated Safeguarding Lead (DSL) who has received appropriate training and support for this role;
  - Ensure it has at least one member of staff who will act in the absence of the DSL (deputy DSL);
  - Ensure it has a nominated governor/trustee who will take leadership responsibility for the school's safeguarding arrangements;
  - Ensure every member of staff (including temporary and supply staff and volunteers) and the Board of Academy Representatives body knows the name of the DSL and any deputies and understands their role; Ensure that the DSL and/or a deputy DSL is always available to speak to during school hours and has made adequate and appropriate cover arrangements for any out of hours/out of term time activities;
  - Ensure all staff and volunteers are alert to the potential need for early help and aware of those children whose vulnerabilities may indicate a greater need and are aware of the role they may play in supporting other agencies and professionals in an early help assessment;
  - Ensure all staff and volunteers understand their responsibilities in being alert to the signs of abuse and neglect, including the specific issues of Female Genital Mutilation (FGM), Child Sexual Exploitation (CSE), Children Missing Education (CME),

Radicalisation and Extremism (Prevent) and Sexual Violence & Sexual Harassment, and maintain an attitude of 'it could happen here';

- Ensure all staff and volunteers understand their responsibility for referring any concerns to the DSL, deputy DSLs or other members of the senior leadership team in a timely manner and are aware that they may raise concerns directly with Children's Social Care Services if they believe their concerns have not been listened to or acted upon;
- Ensure that parents have an understanding of the responsibility placed on the school and staff for child protection by setting out its obligations in the school prospectus and publishing its policy on the school website;
- Operate a lettings policy which ensures the suitability of adults working with children on school sites at any time.
- Ensure that community users organising activities for children are aware of, and understand the need for compliance with the school's child protection guidelines and procedures.
- Ensure that the duty of care towards its pupils and staff is promoted by raising awareness of illegal, unsafe and unwise behaviour and assist staff to monitor their own standards and practice;
- Ensure that all staff and volunteers feel able to raise concerns about poor or unsafe practice and are aware of whistleblowing procedures and helplines.
- Be aware of and follow procedures set out by the DfE and the WSCB where an allegation of abuse is made against a member of staff or volunteer, including making a referral to the Local Authority Designated Officer (LADO);
- Ensure that a referral is made to the DBS and/or the Teaching Regulation Agency if a person in regulated activity has been dismissed or suspended or removed from regulated activity where the harm criteria is met, or would have been had they not resigned;
- Operate safer recruitment practice, ensuring that at least one member on every recruitment panel has completed safer recruitment training.

- 2.3 Our procedures will be regularly reviewed and updated at least annually unless an incident or new legislation or guidance requires the need for an interim review. We recognise the expertise our staff builds by undertaking safeguarding training and managing safeguarding concerns on a daily basis. We therefore invite staff to contribute to and shape this policy and associated safeguarding arrangements.

### 3. Training

- 3.1 When staff join our school they will be informed of the safeguarding children arrangements in place. They will be given a copy of this policy including its Appendices and the school's safeguarding response to children who go missing from education, the pupil behaviour policy, part 1 of Keeping Children Safe in Education (and Annex A for school leaders and those who work directly with children), the school's code of conduct and told who the DSL is, who acts in their absence and what this role includes;
- 3.2 All staff will receive induction in safeguarding children. The induction programme will include basic child protection information relating to signs and symptoms of abuse, how to manage a disclosure from a child, when and how to record a concern about the welfare of a child and advice on safe working practice.
- 3.3 All volunteers, supply staff and regular visitors to our school will be told where our policy is kept, given the name of the DSL and deputy/ies and informed of the school's procedures in reporting concerns.
- 3.4 All staff will receive training in child protection and safe working practice, updated at least every three years, in line with the [WSCB training strategy](#). Training will include signs and symptoms of abuse and neglect, as well as specific safeguarding issues, such as CSE, FGM, Prevent, on-line safety and peer-on-peer abuse, including sexting and sexual

violence and sexual harassment. Training will also include how to record and report abuse both within school and to Children's Social Care.

- 3.5 In addition, staff will receive safeguarding and child protection updates from the DSL as required, but at least annually.
- 3.6 Staff with specific responsibility for safeguarding children will undertake both single and inter-agency training at a level suitable to their role and responsibilities, updated every two years. In addition to formal training the DSL and deputy/ies will update their knowledge and skills via WSCB newsletters, briefings, network meetings and seminars, at regular intervals, at least annually.
- 3.7 Staff with leadership responsibilities will undertake further relevant training in safeguarding related issues such as CSE, FGM, Radicalisation (WRAP training), Sexual Violence and Sexual Harassment, Management of Allegations of Abuse and cascade the learning from this training to the rest of the staff.

#### 4. Responsibilities

4.1 The Board of Academy Representatives will nominate a member to take leadership responsibility for safeguarding children who will liaise with the DSL and or Headteacher in matters relating to safeguarding. It will ensure that:

- the DSL takes lead responsibility for safeguarding and child protection and does not delegate this responsibility;
- the DSL and deputy DSL role is explicit in the role holders' job descriptions;
- safeguarding policies and procedures are in place, available to parents on the school website or by other means and reviewed at least annually;
- safeguarding responses are put in place in cases where children go missing from education;
- mechanisms are in place to assist staff to understand and discharge their role and responsibilities as set out in Part one of Keeping Children Safe in Education;
- termly reports on the effectiveness of the school's safeguarding procedures are presented to the Board of Academy Representatives;
- any returns requested by the LA/WSCB (e.g. s 175/157 audit, CSE audit) are completed in a timely manner to enable the WSCB to meet its statutory duties;
- any weaknesses brought to its attention relating to safeguarding are remedied without delay;
- it complies with all legislative duties, including the duty to report suspected or known cases of FGM

4.2 The Principal will ensure that:

- The Safeguarding policies and procedures are fully implemented and followed by all staff;
- Sufficient funding, support, time and resources are allocated to enable the DSL and other staff to discharge their responsibilities with regard to child protection;
- All staff feel able to raise concerns about poor or unsafe practice and that these are handled sensitively and in accordance with the whistleblowing procedures;
- All allegations of abuse against staff are reported to the LADO in a timely manner. Allegations that fall into the following categories should be reported
  - behaved in a way that has harmed a child, or may have harmed a child;
  - possibly committed a criminal offence against or related to a child;
  - behaved towards a child or children in a way that indicates he or she may pose a risk of harm to children; or
  - behaved or may have behaved in a way that indicates they may not be suitable to work with children.
- When dealing with an allegation against a member of staff, the school will follow the guidance set out in Keeping Children Safe in Education (See part 4 of KCSIE 2020). This

will involve reporting information about allegations and/or terminating placements with agencies for supply staff.

**4.3** The DSL will co-ordinate action on safeguarding and promoting the welfare of children within the school setting. The role of the designated safeguarding lead carries a significant level of responsibility and they should be given the time, funding, training, resources and support they need to carry out the role effectively. The DSL is responsible for:

- Sharing the information about the welfare, safeguarding and child protection issues that children, including children with a social worker, are experiencing, or have experienced, with teachers and school leadership staff.
- Organising child protection induction training for all newly appointed staff, whole staff training, refreshed at least every 3 years with annual updates as required;
- Providing a mechanism to ensure that all staff understand and are able to discharge their role and responsibilities as set out in Part one of Keeping Children Safe in Education;
- Undertaking, in conjunction with the Headteacher and Safeguarding Governor, an annual audit of safeguarding procedures, using the County s175/157 audit or similar;
- Making use of the Levels of Need guidance when making a decision about whether or not the threshold for Early Help or Children's Social Care intervention is met;
- Referring a child to the Family Front Door, when there are concerns about possible abuse and neglect;
- Referring a child to the Channel Panel when there are concerns about possible radicalisation or involvement in extremist groups;
- Liaising with the Principal to ensure he/she is informed of all child protection issues, especially ongoing enquiries under section 47 of the Children Act 1989 and police investigations;
- Liaising with other staff (for example pastoral support staff, school nurses or counsellors, IT technicians or e-safety co-ordinators, SENCOs and Looked After Children Co-ordinators) on matters of safety and safeguarding and when deciding whether to make a referral by liaising with relevant agencies;
- Keeping written records of concerns about children, including the use of body maps, even where there is no need to refer the matter immediately;
- Ensuring all child protection records are kept securely, separate from the main pupil file, and in locked/password protected locations;
- Ensuring that all child protection files are transferred in a safe and timely manner when a child moves settings, both between and across phases, within and out of county and that a receipt of transfer is obtained;
- Notifying the key worker if there is an unexplained absence of more than two days of a pupil who is subject to a child protection plan;
- Monitoring unauthorised absence, particularly where children go missing on repeated occasions, or who have increased vulnerability eg are looked after, SEN, Pupil Premium, at alternative provision and/or have a social worker attached, reporting concerns in line with 'missing children' procedures
- Developing effective links with relevant agencies and other professionals and co-operating as required with their enquiries regarding safeguarding matters including co-operation with serious case reviews, attendance at strategy meetings, initial and review child protection conferences, core group and child in need review meetings;
- Contributing to assessments and providing a report to initial and review conferences which has been shared with parents first, whenever possible;

- Co-ordinating a programme of safety, health and well-being through the curriculum, including issues of protective behaviours, healthy relationships, staying safe on-line, and the promotion of fundamental British values.
- Act as a source of support, advice and expertise for all staff.

## 5. Procedures for managing concerns

- 5.1 Our school adheres to child protection procedures that have been agreed locally through the Worcestershire Safeguarding Children Board (WSCB). Where we identify children and families in need of support, we will carry out our responsibilities in accordance with the West Midlands Safeguarding Children Procedures and the WSCB Levels of Need Guidance.
- 5.2 Every member of staff, including volunteers working with children at our school and supply staff, is advised to maintain an attitude of '*it could happen here*' where safeguarding is concerned. When concerned about the welfare of a child, staff members should always act in the interests of the child and have a responsibility to take action as outlined in this policy. They should not assume a colleague or another professional will take action and share information that might be critical in keeping children safe.
- 5.3 All staff are encouraged to report any concerns that they have and not see these as insignificant. On occasions, a referral is justified by a single incident such as an injury or disclosure of abuse. More often, however, concerns accumulate over a period of time and are evidenced by building up a picture of harm over time; this is particularly true in cases of emotional abuse and neglect. In these circumstances, it is crucial that staff record and pass on concerns in accordance with this policy to allow the DSL to build up a picture and access support for the child at the earliest opportunity. A reliance on memory, without accurate and contemporaneous records of concern, could lead to a failure to protect.
- 5.4 It is *not* the responsibility of school staff to investigate welfare concerns or determine the truth of any disclosure or allegation. All staff, however, have a duty to recognise concerns and pass the information on in accordance with the procedures outlined in this policy.
- 5.5 The Designated Safeguarding Lead (DSL) should be used as a first point of contact for concerns and queries regarding any safeguarding concern in our school. Any member of staff or visitor to the school who receives a disclosure of abuse or suspects that a child is at risk of harm must report it immediately to the DSL or, if unavailable, to the deputy designated lead. In the absence of either of the above, the matter should be brought to the attention of the most senior member of staff or Children's Social Care.
- 5.6 All concerns about a child or young person should be reported without delay and recorded in My Concern online safeguarding platform.
- 5.7 Following receipt of any information raising concern, the DSL will consider what action to take and seek advice from Children's Services as required. All information and actions taken, including the reasons for any decisions made, will be fully documented.
- 5.8 All referrals will be made in line with local procedures as detailed on the Worcestershire website.
- 5.9 If, at any point, there is a risk of immediate serious harm to a child a referral should be made to Children's Services immediately. Anybody can make a referral. If the child's situation does not appear to be improving the staff member with concerns should press for re-consideration by raising concerns again with the DSL and/or the Headteacher. Concerns should always lead to help for the child at some point.
- 5.10 Staff should always follow the reporting procedures outlined in this policy in the first instance. However, they may also share information directly with Children's Services, or the police if:
- the situation is an emergency and the designated senior person, their deputy and the Headteacher are all unavailable;
  - they are convinced that a direct report is the only way to ensure the pupil's safety.

**5.11** Any member of staff who does not feel that concerns about a child have been responded to appropriately and in accordance with the procedures outlined in this policy should raise their concerns with the Headteacher or the Chair of Academy Representatives. If any member of staff does not feel the situation has been addressed appropriately at this point they should contact children's services directly with their concerns.

**5.12 Opportunities to Teach Safeguarding**

Governing bodies will ensure that children are taught about safeguarding, including online safety. Schools should consider this as part of providing a broad and balanced curriculum. This may include covering relevant issues for schools through Sex Education and Health Education (for all pupils in state-funded schools) which will be compulsory from September 2020.

The following resources may will be considered when planning provision:

- DfE advice for schools: teaching online safety in schools
- UK Council for Internet Safety (UKCIS)<sup>27</sup> guidance: Education for a connected world
- National Crime Agency's CEOP education programme: Thinkuknow
- Public Health England: Rise Above

Whilst it is essential that governing bodies and proprietors ensure that appropriate filters and monitoring systems are in place, they should be careful that "over blocking" does not lead to unreasonable restrictions as to what children can be taught with regard to online teaching and safeguarding.

## **6. Specific Safeguarding Issues**

### **6.1 Mental health**

All staff should also be aware that mental health problems can, in some cases, be an indicator that a child has suffered or is at risk of suffering abuse, neglect or exploitation.

- Only appropriately trained professionals should attempt to make a diagnosis of a mental health problem. Staff however, are well placed to observe children day-to-day and identify those whose behaviour suggests that they may be experiencing a mental health problem or be at risk of developing one.
- Where children have suffered abuse and neglect, or other potentially traumatic adverse childhood experiences, this can have a lasting impact throughout childhood, adolescence and into adulthood. It is key that staff are aware of how these children's experiences, can impact on their mental health, behaviour and education.
- If staff have a mental health concern about a child that is also a safeguarding concern, immediate action should be taken, following their child protection policy and speaking to the designated safeguarding lead or a deputy.
- The department has published advice and guidance on Preventing and Tackling Bullying, and Mental Health and Behaviour in Schools (which may also be useful for colleges). In addition, Public Health England has produced a range of resources to support secondary school teachers to promote positive health, wellbeing and resilience among young people including its guidance Promoting children and young people's emotional health and wellbeing. Its resources include social media, forming positive relationships, smoking and alcohol. See Rise Above for links to all materials and lesson plans

### **Children requiring mental health support**

Schools and colleges have an important role to play in supporting the mental health and wellbeing of their pupils. Mental health problems can, in some cases, be an indicator that a child has suffered or is at risk of suffering abuse, neglect or exploitation. This document is for information only and does not come into force until 1 September 2020. Schools and colleges must continue to have regard to KCSIE 2019 until then. Proprietors should ensure they have

clear systems and processes in place for identifying possible mental health problems, including routes to escalate and clear referral and accountability systems.

Schools and colleges can access a range of advice to help them identify children in need of extra mental health support, this includes working with external agencies. More information can be found in the mental health and behaviour in schools guidance, colleges may also wish to follow this guidance as best practice. Public Health England has produced a range of resources to support secondary school teachers to promote positive health, wellbeing and resilience among young people. See Rise Above for links to all materials and lesson plans. The department is providing funding to support costs of a significant training programme for senior mental health leads and the national rollout of the Link Programme. Training for senior mental health leads, will be available to all statefunded schools and colleges by 2025, to help introduce or develop their whole school or college approach to mental health.

## 6.2 Child Missing Education

We recognise that a child going missing from education is a potential indicator of abuse or neglect. Our procedures for dealing with children that go missing from education are based on the [Local Authority](#) and [West Midlands Safeguarding Children procedures](#). Staff are made aware of these procedures at induction and through our Attendance Policy. We will make every attempt to obtain more than one emergency contact number for each child registered at the school to ensure we are able to make contact with a responsible adult when a child missing education is also identified as a welfare and/or safeguarding concern. We will ensure that we inform the local authority when removing a child from the school role at standard and non-standard transition points in line with the [DfE guidance on Children Missing Education](#). We will ensure that we follow these procedures for dealing with children that go missing from education, particularly on repeat occasions, to help identify the risk of abuse and neglect, including sexual exploitation, and to help prevent the risks of their going missing in future. We will ensure that we report children missing education to the LA CME officer, in line with statutory requirements.

## 6.3 Child Sexual Exploitation (CSE) – see Appendix 3

We recognise that CSE is a form of child sexual abuse involving criminal behaviours against children and young people which can have a long-lasting adverse impact on a child's physical and emotional health. Sexual exploitation involves an individual or group of adults taking advantage of the vulnerability of an individual or groups of children or young people. Victims can be boys or girls. Children and young people are often unwittingly drawn into sexual exploitation through the offer of friendship and care, gifts, drugs and alcohol, and sometimes accommodation. It may also be linked to child trafficking. The school addresses the risks of sexual exploitation in the PSHE and SRE curriculum. A common feature of sexual exploitation is that the child often doesn't recognise the coercive nature of the relationship and doesn't see themselves as a victim. The child may initially resent what they perceive as interference by staff, but staff must act on their concerns, as they would for any other type of abuse. All staff, volunteers and governors are made aware of the indicators of sexual exploitation, the fact that the victim may have been sexually exploited even if the sexual activity appears consensual and that it does not always involve physical contact but can occur through the use of technology. All concerns of child sexual exploitation are reported immediately to the DSL.

## 6.4 Child Criminal Exploitation

CCE is where an individual or group takes advantage of an imbalance of power to coerce, control, manipulate or deceive a child into any criminal activity (a) in exchange for something the victim needs or wants, and/or (b) for the financial or other advantage of the perpetrator or facilitator and/or (c) through violence or the threat of violence. The victim may have been criminally exploited even if the activity appears consensual. CCE does not always involve physical contact; it can also occur through the use of technology. CCE can

include children being forced to work in cannabis factories, being coerced into moving drugs or money across the country (county lines, see page 85 of KCSIE for more information), forced to shoplift or pickpocket, or to threaten other young people. Concerns about young people being possibly involved should be passed to the DSL who will refer to Police and the Family Front Door.

#### 6.4.1 County Lines

County lines is a term used to describe gangs and organised criminal networks involved in exporting illegal drugs (primarily crack cocaine and heroin) into one or more importing areas [within the UK], using dedicated mobile phone lines or other form of “deal line”. Exploitation is an integral part of the county lines offending model with children and vulnerable adults exploited to move [and store] drugs and money. Offenders will often use coercion, intimidation, violence (including sexual violence) and weapons to ensure compliance of victims. Children can be targeted and recruited into county lines in a number of locations including schools, further and higher educational institutions, pupil referral units, special educational needs schools, children’s homes and care homes. Children are often recruited to move drugs and money between locations and are known to be exposed to techniques such as ‘plugging’, where drugs are concealed internally to avoid detection. Children can easily become trapped by this type of exploitation as county lines gangs create drug debts and can threaten serious violence and kidnap towards victims (and their families) if they attempt to leave the county lines network. One of the ways of identifying potential involvement in county lines are missing episodes (both from home and school), when the victim may have been trafficked for the purpose of transporting drugs and a referral to the National Referral Mechanism<sup>103</sup> should be considered. If a child is suspected to be at risk of or involved in county lines, a safeguarding referral should be considered alongside consideration of availability of local services/third sector providers who offer support to victims of county lines exploitation. Further information on the signs of a child’s involvement in county lines is available in guidance published by the Home Office.

#### 6.5 Domestic Abuse – see Appendix 4

We recognise that exposures to domestic abuse and/or violence can have a serious, long lasting emotional and psychological impact on children. In some cases, a child may blame themselves for the abuse or may have had to leave the family home as a result. Domestic abuse affecting young people can also occur with n their personal relationships as well as in the context of their home.

#### **Operation Encompass**

Operation Encompass is to highlight that a Domestic Abuse Incident has taken place and the police have been called or visited the family home. It is about keeping an eye on changed behaviour and logging anything out of the ordinary. Our school receives Operation Encompass notifications via WCC Children’s Portal daily from West Mercia Police. All parents have received or will receive a letter informing them on how we use Operation Encompass notifications as part of their induction. (See more in Appendix 3)

We will ensure that our pupils are educated to make certain they understand what a healthy relationship looks like, for example by using the:

WSCP Healthy Relationships- a whole school approach and resources from WCC Domestic Abuse and Sexual Violence website-see links below:

[http://www.worcestershire.gov.uk/downloads/file/7222/wscb\\_healthy\\_relationships\\_a\\_whole\\_school\\_approach](http://www.worcestershire.gov.uk/downloads/file/7222/wscb_healthy_relationships_a_whole_school_approach)

<http://www.worcestershire.gov.uk/domesticabuse>

## 6.6 Extremism and Radicalisation – see Appendix 8

We recognise that children are vulnerable to extremist ideology and radicalisation. We recognise that safeguarding against radicalisation and extremism is no different to safeguarding against any other vulnerability in today's society. We will ensure that:

- Through training, staff, volunteers and Academy Representatives have an understanding of what radicalisation and extremism is, why we need to be vigilant in school and how to respond when concerns arise.
- There are systems in place for keeping pupils safe from extremist material when accessing the internet in our school by using effective filtering and usage policies.
- The DSL has received Prevent training and will act as the point of contact within our school for any concerns relating to radicalisation and extremism.
- The DSL will make referrals in accordance with [West Midlands child protection procedures](#) and will represent our school at Channel meetings as required.
- Through our curriculum, we will promote the spiritual, moral, social and cultural development of pupils. We encourage pupils to respect the fundamental British values of democracy, the rule of law, individual liberty and mutual respect, and tolerance of those with different faiths and beliefs.
- We will use relevant information, tools and resources to help our staff and parents recognise and address extremism and radicalisation in young people, for example the [Educate Against Hate website](#).

## 6.7 'Honour Based' Violence and Female Genital Mutilation (FGM) – see Appendices 5 & 6

Honour based abuse is a collection of practices used to control behaviour within families in order to protect perceived cultural and religious beliefs and/or **honour**. **Violence** can occur when perpetrators perceive that a relative has shamed the family and/or community by breaking their **honour** code.

Female Genital Mutilation (FGM) is illegal in England and Wales under the FGM Act (2003). It is a form of child abuse and violence against women. A mandatory reporting duty requires teachers to report 'known' cases of FGM in under 18s, which are identified in the course of their professional work, to the police<sup>6</sup>.

The duty applies to all persons in St Augustine's School who are employed or engaged to carry out 'teaching work' in the school, whether or not they have qualified teacher status. The duty applies to the individual who becomes aware of the case to make a report. It should not be transferred to the Designated Safeguarding Lead, however the DSL should be informed.

If a teacher is informed by a girl under 18 that an act of FGM has been carried out on her or a teacher observes physical signs which appear to show that an act of FGM has been carried out on a girl under 18 and they have no reason to believe the act was necessary for the girl's physical or mental health or for purposes connected with labour or birth, the teacher should personally make a report to the police force in which the girl resides by calling 101. The report should be made by the close of the next working day.

Concerns about FGM outside of the mandatory reporting duty should be reported as per St Augustine School's child protection procedures. Staff should be particularly alert to suspicions or concerns expressed by female pupils about going on a long holiday during the summer vacation period. There should also be consideration of potential risk to other girls in the family and practising community.

Where there is a risk to life or likelihood of serious immediate harm the teacher should report the case without delay to the police, including dialling 999 if appropriate. There are no circumstances in which a teacher or other member of staff should examine a girl.

**What is breast ironing?**

Breast ironing is practised in some African countries, notably Cameroon. Girls aged between 9 and 15 have hot pestles, stones or other implements rubbed on their developing breast to stop them growing further. In the vast majority of cases breast ironing is carried out by mothers or grandmothers and the men in the family are unaware. Estimates range between 25% and 50% of girls in Cameroon are affected by breast ironing, affecting up to 3.8 million women across Africa.

**Why does breast ironing happen?**

The practice of breast ironing is seen as a protection to girls by making them seem 'child-like' for longer and reduce the likelihood of pregnancy. Once girls' breasts have developed, they are at risk of sexual harassment, rape, forced marriage and kidnapping; consequently, breast ironing is more prevalent in cities. Cameroon has one of the highest rates of illiteracy in Africa and ensuring that girls remain in education is seen as an important outcome of breast ironing.

**Breast ironing is physical abuse**

Breast ironing is a form of physical abuse that has been condemned by the United Nations and identified as Gender-based Violence. Although, countries where breast ironing is prevalent have ratified the African Charter on Human Rights to prevent harmful traditional practices, it is not against the law.

Breast ironing does not stop the breasts from growing, but development can be slowed down. Damage caused by the 'ironing' can leave women with malformed breasts, difficulty breastfeeding or producing milk, severe chest pains, infections and abscesses. In some cases, it may be related to the onset of breast cancer.

**Breast Ironing in the UK**

Concerns have been raised that breast ironing is also to be found amongst African communities in the UK, with as many as 1000 girls at risk. Keeping Children Safe in Education (2018) mentions breast ironing on page 80, as part of the section on so-called 'honour-based' violence. Staff worried about the risk of breast ironing in their school should speak to the Designated Safeguarding Lead as soon as possible. Schools need to know the risk level within their communities and tackle the risk as appropriate.

**What should schools do?**

Where schools have a concern about a child, they should contact Children's Social Care Services. If the concerns are based on more concrete indicators – i.e., the young person says this is going to happen to them, or disclosure that it has happened to them or to an older sister – schools should make a child protection referral and inform the Police as required by the mandatory reporting duty.

Schools should not:

- Contact the parents before seeking advice from children's social care;
- Make any attempt to mediate between the child/young person and parents.

It is important to keep in mind that the parents may not see FGM or Breast Ironing as a form of abuse; however, they may be under a great deal of pressure from their community and or family to subject their daughters to it. Some parents from identified communities may seek advice and support as to how to resist and prevent FGM for their daughters, and education about the harmful effects of FGM and Breast Ironing may help to make parents feel stronger in resisting the pressure of others in the community. Remember that religious teaching does not support FGM or Breast Ironing

**The 'one chance' rule**

In the same way that we talk about the 'one chance rule' in respect of young people coming forward with fears that they may be forced into marriage, young people disclosing fears that they are going to be sent abroad for FGM are taking the 'one chance', of seeking help.

It is essential that we take such concerns seriously and act without delay. Never underestimate the determination of parents who have decided that it is right for their daughter to undergo FGM. Attempts to mediate may place the child/young person at greater risk, and the family may feel so threatened at the news of their child's disclosure that they bring forward their plans or take action to silence her.

### **6.7 Modern Slavery**

The Modern Slavery Act 2015 places a new statutory duty on public authorities, including schools, to notify the National Crime Agency (NCA) (section 52 of the Act) on observing signs or receiving intelligence relating to modern slavery. The public authority (including schools) bears this obligation where it has 'reasonable grounds to believe that a person may be a victim of modern slavery or human trafficking'. Staff need to be aware of this duty and inform the DSL should they suspect or receive information that either parents or their children may be victims of modern slavery. The DSL will then contact the NCA.

### **6.8 Peer on Peer Abuse (including sexual violence and sexual harassment)**

We recognise that children are also vulnerable to physical, sexual and emotional abuse by their peers or siblings. This is most likely to include, but not limited to: bullying (including cyber bullying), physical abuse such as hitting, kicking, shaking, biting, hair pulling, or otherwise causing physical harm; sexual violence and sexual harassment which includes up-skirting (see *below*); sexting (also known as youth produced sexual imagery); and initiation/hazing type violence and rituals. Abuse perpetrated by children can be just as harmful as that perpetrated by an adult, so it is important to remember the impact on the victim of the abuse as well as to focus on the support for the child or young person exhibiting the harmful behaviour. Such abuse will always be taken as seriously as abuse perpetrated by an adult and the same safeguarding children procedures will apply in respect of any child who is suffering or likely to suffer significant harm. Staff must never tolerate or dismiss concerns relating to peer on peer abuse, must not pass it off as 'banter', 'just having a laugh' or 'part of growing up'.

We will ensure, through training, that staff, volunteers and governors will have an understanding of the range of peer on peer abuse, including sexual violence and sexual harassment, and will be made aware of how to count behaviour using resources such as the Brook Traffic Light Tool. Staff should be aware that some groups are potentially more at risk, for example girls, children with SEND and LGBT children.

Staff should be aware that such incidents and/or behaviours can be associated with factors outside the school and can occur between children outside the school. Staff, and particularly the DSL, should always consider the context in which such incidents and/or behaviours occur.

Where the abuse is physical, verbal, bullying or cyber-bullying, recording of such incidents and sanctions will be applied in line with our Behaviour and Anti-Bullying policies. Where a child discloses safeguarding allegations of a sexual nature against another pupil in the same setting, the DSL should refer to the West Midlands Safeguarding Children procedures website (section 3.3) and seek advice from the Family Front Door or Community Social Worker before commencing its own investigation or contacting parents. This may mean, on occasions, that the school is unable to conduct its own investigation into such incidents. All such incidents will be recorded using our child protection recording forms.

Reports of incidents of sexual violence or sexual harassment will be responded to in line with Part 5 of Keeping Children Safe in Education 2018 and the DfE guidance 'Sexual violence and sexual harassment between children in schools and colleges'.

Sexual harassment includes 'Upskirting' which typically involves taking a picture under a person's clothing without them knowing, with the intention of viewing their genitals or buttocks to obtain sexual gratification, or cause the victim humiliation, distress or alarm. It is now a criminal offence and must be reported to the Police. The school will take measures to safeguard staff and students from the risk of their images being filmed/pictured without consent through the use of lockable phone pouches and safeguarding computer software.

Support for the victims of abuse will be in line with support outlined in the school's Behaviour and Anti-Bullying policies. For victims of sexual abuse, the school should follow advice given by Children's Social Care and consider using external agencies, such as Early Help or West Mercia Rape and Sexual Abuse Support Centre to support any strategies that they may be able to provide within school.

Depending on the nature of abuse, the school may need to consider providing measures to protect and support the victim, the alleged perpetrator and other pupils and/or staff in the school by means of a risk assessment. The risk assessment should be recorded and kept under review.

We will ensure, through training, that staff, volunteers and governors will have an understanding of the range of peer on peer abuse, including sexual violence and sexual harassment, and will be made aware of how to recognise and manage such issues. Staff will be given the skills to identify and manage harmful sexual behaviour using resources such as the Brook Traffic Light Tool. Staff should be aware that some groups are potentially more at risk, for example girls, children with SEND and LGBT children.

Staff should be aware that such incidents and/or behaviours can be associated with factors outside the school and can occur between children outside the school. Staff, and particularly the DSL, should always consider the context in which such incidents and/or behaviours occur.

Where the abuse is physical, verbal, bullying or cyber-bullying, recording of such incidents and sanctions will be applied in line with our Behaviour and Anti-Bullying policies. Where a child discloses safeguarding allegations of a sexual nature against another pupil in the same setting, the DSL should refer to the West Midlands Safeguarding Children procedures website (section 3.3 <http://westmidlands.procedures.org.uk/local-content/5cjN/contact-details/?b=Worcestershire>) and seek advice from the Family Front Door or Community Social Worker before commencing its own investigation or contacting parents. This may mean, on occasions, that the school is unable to conduct its own investigation into such incidents. All such incidents will be recorded using our child protection recording forms.

Reports of incidents of sexual violence or sexual harassment will be responded to in line with Part 5 of Keeping Children Safe in Education 2018 and the DfE guidance 'Sexual violence and sexual harassment between children in schools and colleges'.

Support for the victims of abuse will be in line with support outlined in the school's Behaviour and Anti-Bullying policies. For victims of sexual abuse, the school should follow advice given by Children's Social Care and consider using external agencies, such as Early Help or West Mercia Rape and Sexual Abuse Support Centre to support any strategies that they may be able to provide within school.

Depending on the nature of abuse, the school may need to consider providing measures to protect and support the victim, the alleged perpetrator and other pupils and/or staff in the school by means of a risk assessment. The risk assessment should be recorded and kept under review.

## **7. Racist Incidents**

- 7.1** Our policy on racist incidents is included within our behaviour policy and acknowledges that repeated racist incidents or a single serious incident may lead to consideration under child protection procedures. We maintain a log of racist incidents in school.

## **8. Anti-Bullying**

- 8.1** Our policy on anti-bullying is set out in a separate policy and acknowledges that to allow or condone bullying may lead to consideration under child protection procedures. All incidences of bullying, including cyber-bullying, sexting, racist, homophobic and gender-related bullying, will be dealt with in accordance with our anti-bullying policy. We recognise that children with special needs and/or disabilities are more susceptible to being bullied. We maintain a log of bullying incidents in school.
- 8.2** We recognise that there will be occasions when bullying incidents will fall within child protection procedures or may be deemed criminal activity and that it may be necessary to report the concerns to the Family Front Door or to the Police.

## **9. E-Safety**

- 9.1** The DSL understands the unique risks associated with online safety and has the relevant knowledge and up to date capability required to keep children safe whilst they are online at school.
- 9.2** The DSL is able to recognise the additional risks that children with SEN and disabilities face online, for example from online bullying, grooming and radicalisation, and has the capability to support SEND children to stay safe online.
- 9.3** All members of staff are trained in and receive regular updates in e-safety and recognising and reporting concerns.
- 9.4** Our Acceptable Use Policy recognises that internet safety is a whole school responsibility (staff, pupils, governors and parents).
- 9.5** Children and young people may expose themselves to danger, whether knowingly or unknowingly, when using the internet and other technologies. Additionally, some young people may find themselves involved in activities which are inappropriate or possibly illegal.
- 9.6** We therefore recognise our responsibility to educate our pupils, teaching them the appropriate behaviours and critical thinking skills to enable them to remain both safe and legal when using the internet and related technologies.
- 9.7** We will ensure that filters are in place to prevent access to unsuitable sites and we will monitor the use of the school network and internet to ensure that any pupil or staff member attempting to access inappropriate, abusive or harmful material is appropriately advised and/or supported.

## **10. Supporting Children**

- 10.1** We recognise that children who are abused or witness violence may find it difficult to develop a sense of self-worth. They may feel helplessness, humiliation and some sense of blame.
- 10.2** We acknowledge that school may be the only stable, secure and predictable element in the lives of children who have been abused or who are at risk of harm.
- 10.3** We are aware that research shows that at school their behaviour may be challenging and defiant or they may be withdrawn.
- 10.4** The school will endeavour to support all children by:

- encouraging self-esteem and self-assertiveness through the curriculum, as well as promoting respectful relationships, challenging bullying and humiliating behaviour;
- promoting a positive, supportive and secure environment giving pupils a sense of being valued;
- a consistently applied school behaviour policy which is aimed at supporting vulnerable pupils. The school will ensure that the pupil knows that some behaviour is unacceptable but that they are valued and not to be blamed for any abuse which has occurred;
- liaising with other agencies that support the pupil such as Children's Social Care Services, Child and Adolescent Mental Health Service (CAMHS), Educational Psychology Service and those agencies involved in the safeguarding of children;
- the use of Early Help Services, through the Family Front Door, when appropriate;
- notifying Children's Social Care Services immediately there is a significant concern;
- providing continuing support to a child about whom there have been concerns, who leaves the school by ensuring that appropriate information is forwarded under confidential cover to the child's new setting.

## **11. Looked After Children and Previously Looked After children**

- 11.1** The most common reason for children becoming looked after is as a result of abuse or neglect. The school ensures that staff have the necessary skills, knowledge and understanding to keep looked after children safe. Appropriate staff have information about a child's looked after legal status and contact arrangements with birth parents or those with parental responsibility. They also have information about the child's care arrangements, including the level of authority delegated to the carer by the authority looking after the child. The designated teacher for looked after children and the DSL have details of the child's social worker and the name and contact details of the Local Authority's Virtual Head for children in care and previously looked after children.
- 11.2** We recognise that a previously looked after child potentially remains vulnerable and therefore ensure that all staff have the skills, knowledge and understanding to keep previously looked after children safe.
- 11.3** Our Designated members of staff (DSL and Deputy DSL) for looked after children and previously looked after children has the appropriate training and the relevant qualifications and experience of working with this group of children.
- 11.4** The DSL will obtain details of the local authority Personal Adviser appointed to guide and support each care leaver and will liaise with them as necessary regarding any issues of concern affecting the care leaver.

## **12. Special Educational Needs and Disability (SEND)**

- 12.1** We recognise that children with special educational needs and disabilities can face additional safeguarding challenges and these are discussed in staff training. These additional barriers can include:
- assumptions that indicators of possible abuse such as behaviour, mood and injury relate to the child's disability without further exploration;
  - being more prone to peer group isolation than other children;
  - children with SEN and disabilities can be disproportionately impacted by behaviours such as bullying without outwardly showing any signs; and
  - communication barriers and difficulties in overcoming these barriers.
- 12.2** We will always consider extra pastoral support for children with SEND to address these additional challenges.

## **13. Positive Physical Intervention / Use of reasonable force**

- 13.1** Our policy on positive handling is set out in our behaviour policy/a separate policy and acknowledges that staff must only ever use physical intervention as a last resort, and that

at all times it must be the minimal force necessary to prevent injury or damage to property.

- 13.2 We acknowledge that when applying reasonable force in response to risks presented by incidents involving children with SEN or disabilities or with medical conditions, it is important to recognise their additional vulnerability and make every effort to reduce the occurrence of challenging behaviour and the need to use reasonable force.
- 13.3 We understand that physical intervention of a nature that causes injury or distress to a child may be considered under management of allegations or disciplinary procedures.
- 13.4 Staff who are likely to need to use physical intervention will be appropriately trained in the Team Teach technique, or equivalent.
- 13.5 All incidences of physical intervention will be recorded in accordance with the Team Teach recommended procedures.
- 13.6 We recognise that touch is appropriate in the context of working with children and all staff have been given 'safe working practice' guidance to ensure they are clear about their professional boundaries.
- 13.7 We recognise that the adoption of a 'no contact' policy could leave staff unable to fully support and protect our pupils.

#### **14. Record Keeping**

- 14.1 Any member of staff receiving a disclosure of abuse from a child or young person, or noticing signs or symptoms of possible abuse, will make notes as soon as possible (within the hour, if possible) writing down exactly what was said, using the child's own words as far as possible. All notes should be timed, dated and signed, with name printed alongside the signature. Concerns will be recorded using the school's safeguarding children recording system – My Concerns.
- 14.2 All records of a child protection nature will be passed to the DSL including case conference or core group minutes, child protection plans and written records of any concerns. Child protection records are kept securely under lock and key or password protected, with only appropriate persons having access to them.
- 14.3 Any referrals made to other agencies, including referrals to Children's Social Care, will be copied prior to sending and stored in the child's child protection file.
- 14.4 The DSL will maintain and regularly audit the school's child protection records, ensuring that each stand-alone file includes a chronology of significant events and that information and contact details are accurate and up-to-date.
- 14.5 The DSL will transfer the child protection record in a safe and timely manner when a child moves school, ensuring receipt of transfer is obtained.
- 14.6 The DSL may copy child protection records generated by the school prior to transfer and retain for as long as is necessary (normally d.o.b. + 25 years), where there is justification for believing that the records may be required as evidence of the school's involvement with the child for statutory purposes (e.g. court cases or serious case reviews). When the records are no longer required, they will be securely disposed of.

#### **15. Information Sharing & Confidentiality**

- 15.1 Information sharing is vital in identifying and tackling all forms of abuse.
- 15.2 All personal information will be processed fairly and lawfully in line with our duties under the Data Protection Act 2018 and GDPR and will be held safely and securely. However, we recognise that this is not a barrier to sharing information where the failure to do so would result in a child being placed at risk of harm.
- 15.3 We recognise that all matters relating to child protection are confidential.
- 15.4 The Headteacher or DSL will disclose any information about a pupil to other members of staff on a need to know basis only.

- 15.5** All staff must be aware that they have a professional responsibility to share information with other agencies in order to safeguard children.
- 15.6** All staff must be aware that they cannot promise a child to keep secrets which might compromise the child's safety or well-being.
- 15.7** When a child about whom concerns have been raised and recorded leaves the school, the DSL will consider if it would be appropriate to share information with the new school in advance of the child leaving to ensure that support is in place for when the child arrives.
- 16. Communication with Parents**
- 16.1** We recognise that good communication with parents is crucial in order to safeguard and promote the welfare of children effectively.
- 16.2** We will always undertake appropriate discussion with parents prior to involvement of another agency **unless to do so would place the child or an adult at further risk of harm or would impede a criminal investigation.**
- 16.3** We will ensure that parents have an understanding of the responsibilities placed on the school and staff to safeguard children and their duty to co-operate with other agencies in this respect.
- 17. Supporting and Supervision of Staff**
- 17.1** We recognise that staff working in the school who have become involved with a child who has suffered harm, or appears to be likely to suffer harm, may find the situation stressful and upsetting.
- 17.2** We will support such staff by providing an opportunity to talk through their anxieties with the DSL and to seek further support such as counselling or regular supervision, as appropriate.
- 17.3** We will enable supervision for the DSL through network meetings, direct consultation with the Safeguarding in Education Adviser or Consultant Social Workers in order to promote best practice and challenge unsatisfactory or poor practice.
- 17.4** In order to reduce the risk of allegations being made against staff, and ensure that staff are competent, confident and safe to work with children, they will be made aware of safer working practice guidance and will be given opportunities in training to develop their understanding of what constitutes safe and unsafe behaviour.
- 18. Safer Recruitment and Selection of Staff**
- 18.1** The school has a written recruitment and selection policy statement and procedures linking explicitly to this policy. The statement is included in all job advertisements, publicity material, recruitment websites, and candidate information packs.
- 18.2** The recruitment process is robust in seeking to establish the commitment of candidates to support the school's measures to safeguard children and to identify, deter or reject people who might pose a risk of harm to children or are otherwise unsuited to work with them.
- 18.3** References are requested and scrutinised for all candidates prior to interview and any discrepancies or concerns are raised and discussed during interview, including for any volunteers and internal candidates. References are always requested directly from the referee and verified as being from a senior person with appropriate authority; electronic references are checked to ensure they originate from a legitimate source. Where specific questions have not been answered satisfactorily or insufficient information is provided, the referee will be contacted directly for further clarification. Where references are not forthcoming, despite reminders, the candidate will be asked to provide an alternative referee.
- 18.4** All staff working within our school who have substantial access to children have been checked as to their suitability, including verification of their identity, qualifications and a satisfactory barred list check, enhanced DBS check and a right to work in the UK.

- 18.5 All teachers working within our school have been checked using the [Teacher Services website](#) to ensure they have been awarded QTS, they have completed their teacher induction and that there are no prohibitions, sanctions or restrictions in place that might prevent them from taking part in certain activities or working in specific positions, e.g. management posts.
- 18.6 The school seeks written assurance from supply and third-party agencies, alternative providers, initial teacher training providers and contractors that they have undertaken all appropriate checks on any of their staff that work with or have regular contact with our pupils.
- 18.7 Our governors are subject to an enhanced DBS check without barred list check and have been checked to ensure they are not disqualified from holding office under a section 128 direction.
- 18.8 The school maintains a single central record of recruitment checks for audit purposes.
- 18.9 Any member of staff working in regulated activity prior to receipt of a satisfactory DBS check will not be left unsupervised and will be subject to a risk assessment.
- 18.10 Volunteers who are not working in regulated activity, will be supervised at all times. A risk assessment will be undertaken to help decide whether or not an enhanced DBS check is required

#### **19. Allegations against staff**

- 19.1 We acknowledge that a pupil may make an allegation against a member of staff or volunteer.
- 19.2 If such an allegation is made, which meets the criteria as identified in Part 4 of Keeping Children Safe in Education, the member of staff receiving the allegation will immediately inform the Headteacher, unless the allegation concerns the Headteacher, in which case the Chair of Academy Representatives will be informed immediately. Where the Headteacher is the sole proprietor, the allegation will be reported directly to the Local Authority Designated Officer (LADO).
- 19.3 The Headteacher (or Chair of Academy Representatives) on all such occasions will discuss the content of the allegation with LADO, prior to undertaking any investigation.
- 19.4 The school will follow the DfE, [West Midlands Safeguarding Children and LA procedures](#) for managing allegations against staff, a copy of which is available in school.
- 19.5 The case manager will be guided by the LADO in all matters relating to the case, including suspension, sharing of information and any follow up investigation.

#### **20. Abuse of Position of Trust**

- 20.1 We recognise that as adults working in the school, we are in a relationship of trust with pupils in our care and acknowledge that it could be considered a criminal offence to abuse that trust.
- 20.2 We acknowledge that the principle of equality embedded in the legislation of the Sexual Offenders Act 2003 applies irrespective of sexual orientation: neither homosexual nor heterosexual relationships are acceptable within a position of trust.
- 20.3 We recognise that the legislation is intended to protect young people in education who are over the age of consent but under 19 years of age

#### **21. Complaints or Concerns expressed by Pupils, Parents, Staff or Volunteers**

- 21.1 We recognise that listening to children is an important and essential part of safeguarding them against abuse and neglect. To this end, any expression of dissatisfaction or disquiet in relation to an individual child will be listened to and acted upon in order to safeguard his/her welfare.
- 21.2 We will also seek to ensure that the child or adult who makes a complaint is informed not only about the action the school will take but also the length of time that will be required to resolve the complaint. The school will also endeavour to keep the child or adult

regularly informed as to the progress of his/her complaint. The school's complaints procedures are readily available.

## 22. Whistleblowing

- 22.1 We recognise that children cannot be expected to raise concerns in an environment where staff fail to do so.
- 22.2 All staff should be aware of their duty to raise concerns, where they exist, about the attitude or actions of colleagues using the school's confidential reporting (whistleblowing) policy.
- 22.3 Whistleblowing concerns about the Headteacher should be raised with the Chair of Governors. Where the Headteacher is also the sole proprietor, concerns should be reported directly to the Local Authority Designated Officer (LADO).
- 22.4 Staff will be made aware that if they feel unable to raise a child protection failure internally, they can contact the [NSPCC whistleblowing helpline](#)

## 23. Photography and use of images (including handheld devices)

- 23.1 The welfare and protection of our children is paramount and consideration should always be given to whether the use of photography will place our children at risk. Images may be used to harm children, for example as a preliminary to 'grooming' or by displaying them inappropriately on the internet, particularly social networking sites.
- 23.2 For this reason, consent is always sought when photographing children using any means and including iPads, smart phones or cameras and additional consideration given to photographing vulnerable children, particularly Looked After Children or those known to be fleeing domestic violence. Consent must be sought from those with parental responsibility (this may include the Local Authority in the case of Looked After Children).
- 23.3 Many pupils own or have access to hand held devices and parents are encouraged to consider measures to keep their children safe when using the internet and social media at home and in the community

## 24. Staff / Pupil Relationships

- 24.1 The school provides advice to staff regarding their personal online activity and has strict rules regarding online contact and electronic communication with pupils. Staff found to be in breach of these rules may be subject to disciplinary action or child protection investigation.

## 25. Health and Safety

- 25.1 Our Health & Safety Policy, set out in a separate document, reflects the consideration we give to the safeguarding of our children both within the school environment and when away from the school, for example when undertaking school trips and visits.
- 25.2 Risk Assessments are undertaken and reviewed regularly, in respect of site security, risk of children being drawn into terrorism or exposed to extremist behaviour, risk to and from children displaying harmful behaviour.

## 26. Safe Environment

- 26.1 The school undertakes appropriate risk assessments and checks in respect of all equipment and of the building and grounds in line with local and national guidance and regulations concerning health and safety.
- 26.2 The school has adequate security arrangements in place in respect of the use of its grounds and buildings by visitors both in and out of school hours.
- 26.3 Visitors to the school, for example visiting speakers, theatre groups or curriculum specialists, will be appropriately checked and vetted, to ensure they are not linked to extremist groups or promoting extremist or other harmful material

**27. Private Fostering Arrangements**

- 27.1 A private fostering arrangement occurs when someone (other than a parent or a close relative) cares for a child for a period of 28 days or more, with the agreement of the child's parents. It applies to children under the age of 16, or aged under 18 if the child is disabled. Children looked after by the local authority or who are placed in a residential school, children's home or hospital are not considered to be privately fostered.
- 27.2 Private fostering occurs in all cultures, including British culture and children may be privately fostered at any age.
- 27.3 Most privately fostered children remain safe and well but safeguarding concerns have been raised in some cases so it is important that schools are alert to possible safeguarding issues, including the possibility that a child has been trafficked into the country.
- 27.4 By law, a parent, private foster carer or other persons involved in making a private fostering arrangement must notify Children's Services as soon as possible.
- 27.5 If we become aware of a privately fostering arrangement, we will check that Children's Services have been informed.

**28 Homelessness**

- 28.1 Being homeless or being at risk of becoming homeless presents a real risk to a child's welfare. The designated safeguarding lead (and any deputies) should be aware of contact details and referral routes in to the Local Housing Authority so they can raise/progress concerns at the earliest opportunity. Indicators that a family may be at risk of homelessness include household debt, rent arrears, domestic abuse and anti-social behaviour, as well as the family being asked to leave a property. Whilst referrals and/or discussion with the Local Housing Authority should be progressed as appropriate, and in accordance with local procedures, this does not, and should not, replace a referral into children's social care where a child has been harmed or is at risk of harm.
- 28.2 The Homelessness Reduction Act 2017 places a new legal duty on English councils so that everyone who is homeless or at risk of homelessness will have access to meaningful help including an assessment of their needs and circumstances, the development of a personalised housing plan, and work to help them retain their accommodation or find a new place to live. The following factsheets usefully summarise the new duties: Homeless Reduction Act Factsheets. The new duties shift focus to early intervention and encourage those at risk to seek support as soon as possible, before they are facing a homelessness crisis.

In most cases school and college staff will be considering homelessness in the context of children who live with their families, and intervention will be on that basis. However, it should also be recognised in some cases 16 and 17 year olds could be living independently from their parents or guardians, for example through their exclusion from the family home, and will require a different level of intervention and support. Children's services will be the lead agency for these young people and the DSL (or a deputy) should ensure appropriate referrals are on the provision of accommodation for 16 and 17 year olds who may be homeless and/or require accommodation.

**29. Challenge and Escalation**

We recognise that professional disagreements may arise between any agencies and resolving problems is an integral part of co-operation and joint working to safeguard children. As part of our responsibility for safeguarding children, we acknowledge that we must be prepared to challenge each other if we feel that responses to concerns, assessments or the way in which plans are implemented are not safeguarding the child and promoting their welfare.

We are aware of the WSCB escalation procedures for raising concerns in respect of poor practice and recognise our responsibility to utilise these as and when necessary, in the interests of safeguarding and promoting the welfare of children

### 30. Monitoring and Evaluation

Our Safeguarding Children policy and procedures will be monitored and evaluated by:

- Completion of the annual safeguarding audit;
- Completion and return to the LA/WSCB of the annual safeguarding report to the Board of Academy Representatives;
- Pupil surveys and questionnaires;
- Discussions with children and staff;
- Scrutiny of data and risk assessments;
- Scrutiny of the school's single central record of recruitment checks;
- Scrutiny of Board of Academy Representatives minutes;
- Monitoring of logs of bullying/racist/behaviour incidents and PPI records;
- Supervision of staff involved in child protection;
- Case file audits undertaken by the DSL and the WSCB

### 31. Other Relevant Policies

The Board of Academy Representatives statutory responsibility for safeguarding the welfare of children goes beyond basic child protection procedures.

The duty is now to ensure that safeguarding permeates all activity and functions. This policy therefore complements and supports a range of other policies, e.g.

- Staff Behaviour / Staff Code of Conduct
- Allegations of Abuse against Teachers and other Staff
- Complaints Procedure
- Mobile Phone Policy
- Behaviour Management
- Sexual Violence and Sexual Harassment Policy
- Anti-Bullying, including cyber-bullying
- Positive Physical Intervention
- Special Educational Needs
- Trips and visits
- Work experience and extended work placements
- First aid and the administration of medicines
- Health and Safety
- Intimate Care
- Sex and Relationships Education
- Safe and Appropriate Use of Images
- Equal Opportunities
- E-safety and Acceptable Internet Use
- Whistleblowing (Confidential Reporting)
- Preventing Extremism and Radicalisation

The above list is not exhaustive but when undertaking development or planning of any kind the school will need to consider safeguarding matters.

**Appendix 1**

Logging a Concern about a child's safety and welfare

Please see the following referral information regarding the My Concern Online Platform. Any information included is of a fictional nature and used to demonstrate the software capabilities rather than real life people.

[https://www.capita-sims.co.uk/sites/default/files/2018-01/MyConcern\\_Guide\\_Edit\\_19December.pdf](https://www.capita-sims.co.uk/sites/default/files/2018-01/MyConcern_Guide_Edit_19December.pdf)

**APPENDIX 2****Recognition & Identification of Abuse**

*Definitions taken from Keeping Children Safe in Education, 2020*

**What is abuse?**

Abuse and neglect are forms of maltreatment of a child. Somebody may abuse or neglect a child by inflicting harm, or by failing to act to prevent harm. Children may be abused in a family or in an institutional or community setting, by those known to them or, more rarely, by others. Abuse can take place wholly online, or technology may be used to facilitate offline abuse. They may be abused by an adult or adults, or another child or children.

**Indicators of Abuse**

Caution should be used when referring to lists of signs and symptoms of abuse. Although the signs and symptoms listed below may be indicative of abuse there may be alternative explanations. In assessing the circumstances of any child any of these indicators should be viewed within the overall context of the child's individual situation including any disability.

**EMOTIONAL ABUSE**

Emotional Abuse is the persistent emotional maltreatment of a child such as to cause severe and persistent adverse effects on the child's emotional development. It may involve conveying to children that they are worthless or unloved, inadequate, or valued only insofar as they meet the needs of another person. It may include not giving the child opportunities to express their views, deliberately silencing them or 'making fun' of what they say or how they communicate. It may feature age or developmentally inappropriate expectations being imposed on children. These may include interactions that are beyond the child's developmental capability, as well as overprotection and limitation of exploration and learning, or preventing the child participating in normal social interaction. It may involve seeing or hearing the ill-treatment of another. It may involve serious bullying (including cyber-bullying), causing children frequently to feel frightened or in danger, or the exploitation or corruption of children. Some level of emotional abuse is involved in all types of maltreatment of a child, though it may occur alone.

Emotional abuse is difficult to:

- define
- identify/recognise
- prove.

Emotional abuse is chronic and cumulative and has a long-term impact. Indicators may include:

- Physical, mental and emotional development lags
- Sudden speech disorders
- Continual self-depreciation ('I'm stupid, ugly, worthless, etc.')
- Overreaction to mistakes
- Extreme fear of any new situation
- Inappropriate response to pain ('I deserve this')
- Unusual physical behaviour (rocking, hair twisting, self-mutilation) - consider within the context of any form of disability such as autism
- Extremes of passivity or aggression
- Children suffering from emotional abuse may be withdrawn and emotionally flat. One reaction is for the child to seek attention constantly or to be over-familiar. Lack of self-esteem and developmental delay are again likely to be present
- Babies – feeding difficulties, crying, poor sleep patterns, delayed development, irritable, non-cuddly, apathetic, non-demanding

- Toddler/Pre-School – head banging, rocking, bad temper, 'violent', clingy. From overactive to apathetic, noisy to quiet. Developmental delay – especially language and social skills
- School age – Wetting and soiling, relationship difficulties, poor performance at school, non-attendance, antisocial behaviour. Feels worthless, unloved, inadequate, frightened, isolated, corrupted and terrorised
- Adolescent – depression, self-harm, substance abuse, eating disorder, poor self-esteem, oppositional, aggressive and delinquent behaviour
- Child may be underweight and/or stunted
- Child may fail to achieve milestones, fail to thrive, experience academic failure or under achievement
- Also consider a child's difficulties in expressing their emotions and what they are experiencing and whether this has been impacted on by factors such as age, language barriers or disability

## NEGLECT

Neglect is the persistent failure to meet a child's basic physical and/or psychological needs, likely to result in the serious impairment of the child's health or development. Neglect may occur during pregnancy as a result of maternal substance abuse. Once a child is born, neglect may involve a parent or carer failing to provide adequate food, clothing and shelter (including exclusion from home or abandonment), failing to protect a child from physical and emotional harm or danger, failure to ensure adequate supervision (including the use of inadequate care-givers) or failure to ensure access to appropriate medical care or treatment. It may also include neglect of, or unresponsiveness to, a child's basic emotional needs.

There are occasions when nearly all parents find it difficult to cope with the many demands of caring for children. But this does not mean that their children are being neglected. Neglect involves ongoing failure to meet a child's needs.

Neglect can often fit into six forms which are:

- Medical – the withholding of medical care including health and dental.
- Emotional – lack of emotional warmth, touch and nurture
- Nutritional – either through lack of access to a proper diet which can affect their development.
- Educational – failing to ensure regular school attendance that prevents the child reaching their full potential academically
- Physical – failure to meet the child's physical needs
- Lack of supervision and guidance – meaning the child is in dangerous situations without the ability to risk assess the danger.

### Common Concerns:

With regard to the child, some of the regular concerns are:

- The child's development in all areas including educational attainment
- Cleanliness
- Health
- Children left at home alone and accidents related to this
- Taking on unreasonable care for others
- Young carers

Neglect can often be an indicator of further maltreatment and is often identified as an issue in serious case reviews as being present in the lead up to the death of the child or young person. It is important to recognise that the most frequent issues and concerns regarding the family in relation to neglect relate to parental capability.

This can be a consequence of:

- Poor health, including mental health or mental illness
- Disability, including learning difficulties
- Substance misuse and addiction

- Domestic violence

School staff need to consider both acts of *commission* (where a parent/carer deliberately neglects the child) and acts of *omission* (where a parent's failure to act is causing the neglect). This is a key consideration with regard to school attendance where parents are not ensuring their child attend school regularly.

Many of the signs of neglect are visible. However, school staff may not instinctively know how to recognise signs of neglect or know how to respond effectively when they suspect a pupil is being neglected. Children spend considerable time in school, so staff have opportunities to identify patterns over time and recognise and respond to concerns about their safety and welfare. All concerns should be recorded and reflected upon, not simply placed in a file.

Here are some signs of possible neglect:

#### **Physical signs:**

- Constant hunger
- Poor personal hygiene
- Constant tiredness
- Emaciation
- Untreated medical problems
- The child seems underweight and is very small for their age
- The child is poorly clothed, with inadequate protection from the weather
- Neglect can lead to failure to thrive, manifest by a fall away from initial centile lines in weight, height and head circumference. Repeated growth measurements are crucially important
- Signs of malnutrition include wasted muscles and poor condition of skin and hair. It is important not to miss an organic cause of failure to thrive; if this is suspected, further investigations will be required
- Infants and children with neglect often show rapid growth catch-up and improved emotional response in a hospital environment
- Failure to thrive through lack of understanding of dietary needs of a child or inability to provide an appropriate diet; or may present with obesity through inadequate attention to the child's diet
- Being too hot or too cold – red, swollen and cold hands and feet or they may be dressed in inappropriate clothing
- Consequences arising from situations of danger – accidents, assaults, poisoning
- Unusually severe but preventable physical conditions owing to lack of awareness of preventative health care or failure to treat minor conditions
- Health problems associated with lack of basic facilities such as heating
- Neglect can also include failure to care for the individual needs of the child including any additional support the child may need as a result of any disability

#### **Behavioural signs:**

- No social relationships
- Compulsive scavenging
- Destructive tendencies
- If they are often absent from school for no apparent reason
- If they are regularly left alone, or in charge of younger brothers or sisters
- Lack of stimulation can result in developmental delay, for example, speech delay, and this may be picked up opportunistically or at formal development checks
- Craving attention or ambivalent towards adults, or may be very withdrawn

- Delayed development and failing at school (poor stimulation and opportunity to learn)
- Difficult or challenging behaviour

### PHYSICAL ABUSE

Physical abuse may involve hitting, shaking, throwing, poisoning, burning or scalding, drowning, suffocating, or otherwise causing physical harm to a child. Physical harm may also be caused when a parent or carer fabricates the symptoms of or deliberately induces illness in a child.

When dealing with concerns regarding physical abuse, refer any suspected non-accidental injury to the Designated Safeguarding Lead without delay so that they are able to seek appropriate guidance from the police and/or Children's Services in order to safeguard the child.

Staff must be alert to:

- Unexplained recurrent injuries or burns; improbable excuses or refusal to explain injuries;
- Injuries that are not consistent with the story: too many, too severe, wrong place or pattern, child too young for the activity described.

### Physical signs:

- Bald patches
- Bruises, black eyes and broken
- Untreated or inadequately treated injuries
- Injuries to parts of the body where accidents are unlikely, such as thighs, back, abdomen
- Scalds and burns
- General appearance and behaviour of the child may include:
  - Concurrent failure to thrive: measure height, weight and, in the younger child, head circumference;
  - Frozen watchfulness: impassive facial appearance of the abused child who carefully tracks the examiner with his eyes.
- Bruising:
  - Bruising patterns can suggest gripping (finger marks), slapping or beating with an object
  - Bruising on the cheeks, head or around the ear and black eyes can be the result of non-accidental injury.
- Other injuries:
  - Bite marks may be evident from an impression of teeth
  - Small circular burns on the skin suggest cigarette burns
  - Scalding inflicted by immersion in hot water often affects buttocks or feet and legs symmetrically
  - Red lines occur with ligature injuries
  - Retinal haemorrhages can occur with head injury and vigorous shaking of the baby
  - Tearing of the frenulum of the upper lip can occur with force-feeding. However, any injury of this type must be assessed in the context of the explanation given, the child's developmental stage, a full examination and other relevant investigations as appropriate.
  - Fractured ribs: rib fractures in a young child are suggestive of non-accidental injury
  - Other fractures: spiral fractures of the long bones are suggestive of non-accidental injury

### Behavioural signs:

- Wearing clothes to cover injuries, even in hot weather
- Refusal to undress for gym
- Chronic running away
- Fear of medical help or examination
- Self-destructive tendencies
- Fear of physical contact - shrinking back if touched
- Admitting that they are punished, but the punishment is excessive (such as a child being beaten every night to 'make him study')

- Fear of suspected abuser being contacted
- Injuries that the child cannot explain or explains unconvincingly
- Become sad, withdrawn or depressed
- Having trouble sleeping
- Behaving aggressively or be disruptive
- Showing fear of certain adults
- Having a lack of confidence and low self-esteem
- Using drugs or alcohol
- Repetitive pattern of attendance: recurrent visits, repeated injuries
- Excessive compliance
- Hyper-vigilance

## SEXUAL ABUSE

Sexual Abuse involves forcing or enticing a child or young person to take part in sexual activities, not necessarily involving a high level of violence, whether or not the child is aware of what is happening. The activities may involve physical contact, including assault by penetration (for example rape or oral sex) or non-penetrative acts such as masturbation, kissing, rubbing and touching outside of clothing. They may include non-contact activities, such as involving children in looking at or in the production of, sexual images, watching sexual activities, encouraging children to behave in sexually inappropriate ways, or grooming a child in preparation for abuse. Sexual abuse can take place online, and technology can be used to facilitate offline abuse. Sexual abuse is not solely perpetrated by adult males. Women can also commit acts of sexual abuse, as can other children. The sexual abuse of children by other children is a specific safeguarding issue in education.

Sexual abuse is usually perpetrated by people who are known to and trusted by the child – e.g. relatives, family friends, neighbours, people working with the child in school or through other activities.

### Characteristics of child sexual abuse:

- It is usually planned and systematic – people do not sexually abuse children by accident, though sexual abuse can be opportunistic;
- Grooming the child – people who abuse children take care to choose a vulnerable child and often spend time making them dependent. This can be done in person or via the internet through chat-rooms and social networking sites;
- Grooming the child's environment – abusers try to ensure that potential adult protectors (parents and other carers especially) are not suspicious of their motives. Again, this can be done in person or via the internet through chat-rooms and social networking sites.

### In young children behavioural changes may include:

- Regressing to younger behaviour patterns such as thumb sucking or bringing out discarded cuddly toys
- Being overly affectionate - desiring high levels of physical contact and signs of affection such as hugs and kisses
- Lack of trust or fear of someone they know well, such as not wanting to be alone with a babysitter or child minder
- They may start using sexually explicit behaviour or language, particularly if the behaviour or language is not appropriate for their age
- Starting to wet again, day or night/nightmares

### In older children behavioural changes may include:

- Extreme reactions, such as depression, self-mutilation, suicide attempts, running away, overdoses, anorexia
- Personality changes such as becoming insecure or clinging
- Sudden loss of appetite or compulsive eating

- Being isolated or withdrawn
- Inability to concentrate
- Become worried about clothing being removed
- Suddenly drawing sexually explicit pictures
- Trying to be 'ultra-good' or perfect; overreacting to criticism
- Genital discharge or urinary tract infections
- Marked changes in the child's general behaviour. For example, they may become unusually quiet and withdrawn, or unusually aggressive. Or they may start suffering from what may seem to be physical ailments, but which can't be explained medically
- The child may refuse to attend school or start to have difficulty concentrating so that their schoolwork is affected
- They may show unexpected fear or distrust of a particular adult or refuse to continue with their usual social activities
- The child may describe receiving special attention from a particular adult, or refer to a new, "secret" friendship with an adult or young person
- Children who have been sexually abused may demonstrate inappropriate sexualised knowledge and behaviour
- Low self-esteem, depression and self-harm are all associated with sexual abuse

#### **Physical signs and symptoms for any age child could be:**

- Medical problems such as chronic itching, pain in the genitals, venereal diseases
- Stomach pains or discomfort walking or sitting
- Sexually transmitted infections
- Any features that suggest interference with the genitalia. These may include bruising, swelling, abrasions or tears
- Soreness, itching or unexplained bleeding from penis, vagina or anus
- Sexual abuse may lead to secondary enuresis or faecal soiling and retention
- Symptoms of a sexually transmitted disease such as vaginal discharge or genital warts, or pregnancy in adolescent girls

#### **Sexual Abuse by Young People**

The boundary between what is abusive and what is part of normal childhood or youthful experimentation can be blurred. The determination of whether behaviour is developmental, inappropriate or abusive will hinge around the related concepts of true consent, power imbalance and exploitation. This may include children and young people who exhibit a range of sexually problematic behaviour such as indecent exposure, obscene telephone calls, fetishism, bestiality and sexual abuse against adults, peers or children.

Developmental Sexual Activity encompasses those actions that are to be expected from children and young people as they move from infancy through to an adult understanding of their physical, emotional and behavioural relationships with each other. Such sexual activity is essentially information gathering and experience testing. It is characterised by mutuality and of the seeking of consent.

Inappropriate Sexual Behaviour can be inappropriate socially, inappropriate to development, or both. In considering whether behaviour fits into this category, it is important to consider what negative effects it has on any of the parties involved and what concerns it raises about a child or young person. It should be recognised that some actions may be motivated by information seeking, but still cause significant upset, confusion, worry, physical damage, etc. it may also be that the behaviour is "acting out" which may derive from other sexual situations to which the child or young person has been exposed.

If an act appears to have been inappropriate, there may still be a need for some form of behaviour management or intervention. For some children, educative inputs may be enough to address the behaviour. Abusive sexual activity includes any behaviour involving coercion, threats, aggression together with secrecy, or where one participant relies on an unequal power base.

### **Assessment**

In order to more fully determine the nature of the incident the following factors should be given consideration. The presence of exploitation in terms of:

**Equality** – consider differentials of physical, cognitive and emotional development, power and control and authority, passive and assertive tendencies

**Consent** – agreement including all the following: - Understanding that is proposed based on age, maturity, development level, functioning and experience

- Knowledge of society's standards for what is being proposed
- Awareness of potential consequences and alternatives
- Assumption that agreements or disagreements will be respected equally
- Voluntary decision
- Mental competence

**Coercion** – the young perpetrator who abuses may use techniques like bribing, manipulation and emotional threats of secondary gains and losses that is loss of love, friendship, etc. Some may use physical force, brutality or the threat of these regardless of victim resistance.

In evaluating sexual behaviour of children and young people, the above information should be used only as a guide.

## APPENDIX 3

**Definitions taken from KCSIE 2020**  
**Children missing from education**

All staff should be aware that children going missing, particularly repeatedly, can act as a vital warning sign of a range of safeguarding possibilities. This may include abuse and neglect, which may include sexual abuse or exploitation and can also be a sign of child criminal exploitation including involvement in county lines. It may indicate mental health problems, risk of substance abuse, risk of travelling to conflict zones, risk of female genital mutilation or risk of forced marriage. Early intervention is necessary to identify the existence of any underlying safeguarding risk and to help prevent the risks of a child going missing in future. Staff should be aware of their school's or college's unauthorised absence and children missing from education procedures.

**Children with family members in prison**

Approximately 200,000 children in England and Wales have a parent sent to prison each year. These children are at risk of poor outcomes including poverty, stigma, isolation and poor mental health. [NICCO](#) provides information designed to support professionals working with offenders and their children, to help mitigate negative consequences for those children.

**Child Criminal Exploitation (CCE)**

CCE is where an individual or group takes advantage of an imbalance of power to coerce, control, manipulate or deceive a child into any criminal activity (a) in exchange for something the victim needs or wants, and/or (b) for the financial or other advantage of the perpetrator or facilitator and/or (c) through violence or the threat of violence. The victim may have been criminally exploited even if the activity appears consensual. CCE does not always involve physical contact; it can also occur through the use of technology.

CCE can include children being forced to work in cannabis factories, being coerced into moving drugs or money across the country (county lines, see page 85 for more information), forced to shoplift or pickpocket, or to threaten other young people.

Some of the following can be indicators of CCE:

- children who appear with unexplained gifts or new possessions;
- children who associate with other young people involved in exploitation;
- children who suffer from changes in emotional well-being;
- children who misuse drugs and alcohol;
- children who go missing for periods of time or regularly come home late; and
- children who regularly miss school or education or do not take part in education.

**Child Sexual Exploitation (CSE)**

CSE occurs where an individual or group takes advantage of an imbalance of power to coerce, manipulate or deceive a child into sexual activity (a) in exchange for something the victim needs or wants, and/or (b) for the financial advantage or increased status of the perpetrator or facilitator. The victim may have been sexually exploited even if the sexual activity appears consensual. CSE does not always involve physical contact; it can also occur through the use of technology. CSE can affect any child or young person (male or female) under the age of 18 years, including 16 and 17 year olds who

can legally consent to have sex. It can include both contact (penetrative and non-penetrative acts) and non-contact sexual activity and may occur without the child or young person's immediate knowledge (e.g. through others copying videos or images they have created and posted on social media).

The above CCE indicators can also be indicators of CSE, as can:

- children who have older boyfriends or girlfriends; and
- children who suffer from sexually transmitted infections or become pregnant. The department provide: [Child sexual exploitation: guide for practitioners](#)

### County lines

County lines is a term used to describe gangs and organised criminal networks involved in exporting illegal drugs (primarily crack cocaine and heroin) into one or more importing areas [within the UK], using dedicated mobile phone lines or other form of "deal line".

Exploitation is an integral part of the county lines offending model with children and vulnerable adults exploited to move [and store] drugs and money. Offenders will often use coercion, intimidation, violence (including sexual violence) and weapons to ensure compliance of victims. Children can be targeted and recruited into county lines in a number of locations including schools, further and higher educational institutions, pupil referral units, special educational needs schools, children's homes and carehomes.

Children are often recruited to move drugs and money between locations and are known to be exposed to techniques such as 'plugging', where drugs are concealed internally to avoid detection. Children can easily become trapped by this type of exploitation as county lines gangs create drug debts and can threaten serious violence and kidnap towards victims (and their families) if they attempt to leave the county lines network.

One of the ways of identifying potential involvement in county lines are missing episodes (both from home and school), when the victim may have been trafficked for the purpose of transporting drugs and a referral to the National Referral Mechanism<sup>103</sup> should be considered. If a child is suspected to be at risk of or involved in county lines, a safeguarding referral should be considered alongside consideration of availability of local services/third sector providers who offer support to victims of county lines exploitation.

Further information on the signs of a child's involvement in county lines is available in guidance published by the [Home Office](#).

### Domestic abuse

The cross-government definition of domestic violence and abuse is: any incident or pattern of incidents of controlling, coercive, threatening behaviour, violence or abuse between those aged 16 or over who are, or have been, intimate partners or family members regardless of gender or sexuality. The abuse can encompass, but is not limited to: psychological; physical; sexual; financial; and emotional.

All children can witness and be adversely affected by domestic abuse in the context of their home life where domestic abuse occurs between family members. Exposure to domestic abuse and/or violence can have a serious, long lasting emotional and psychological impact on children. In some cases, a child may blame themselves for the abuse or may have had to leave the family home as a result.

### *Operation Encompass*

Operation Encompass operates in the majority of police forces across England. It helps police and schools work together to provide emotional and practical help to children. The system ensures that when police are called to an incident of domestic abuse, where there are children in the household who have experienced the domestic incident, the police will inform the key adult (usually the designated safeguarding lead) in school before the child or children arrive at school the following day. This ensures that the school has up to date relevant information about the child's circumstances and can enable support to be given to the child according to their needs. Police forces not signed up to operation encompass will have their own arrangements in place.

### *National Domestic Abuse Helpline*

Refuge runs the National Domestic Abuse Helpline, which can be called free of charge and in confidence, 24 hours a day on 0808 2000 247. Its website provides guidance and support for potential victims, as well as those who are worried about friends and loved ones. It also has a form through which a safe time from the team for a call can be booked.

Additional advice on identifying children who are affected by domestic abuse and how they can be helped is available at:

- [NSPCC- UK domestic-abuse Signs Symptoms Effects](#)
- [Refuge what is domestic violence/effects of domestic violence on children](#)
- [SafeLives: young people and domestic abuse.](#)

### **Homelessness**

Being homeless or being at risk of becoming homeless presents a real risk to a child's welfare. The designated safeguarding lead (and any deputies) should be aware of contact details and referral routes in to the Local Housing Authority so they can raise/progress concerns at the earliest opportunity. Indicators that a family may be at risk of homelessness include household debt, rent arrears, domestic abuse and anti-social behaviour, as well as the family being asked to leave a property. Whilst referrals and/or discussion with the Local Housing Authority should be progressed as appropriate, and in accordance with local procedures, this does not, and should not, replace a referral into children's social care where a child has been harmed or is at risk of harm.

The Homelessness Reduction Act 2017 places a new legal duty on English councils so that everyone who is homeless or at risk of homelessness will have access to meaningful help including an assessment of their needs and circumstances, the development of a personalised housing plan, and work to help them retain their accommodation or find a new place to live. The following factsheets usefully summarise the new duties: [Homeless Reduction Act Factsheets](#). The new duties shift focus to early intervention and encourage those at risk to seek support as soon as possible, before they are facing a homelessness crisis.

In most cases school and college staff will be considering homelessness in the context of children who live with their families, and intervention will be on that basis. However, it should also be recognised in some cases 16 and 17 year olds could be living independently from their parents or guardians, for example through their exclusion from the family home, and will require a different level of intervention and support. Children's services will be the lead agency for these young people and the designated safeguarding lead (or a deputy) should ensure appropriate referrals are made based on the child's circumstances. The department and the Ministry of Housing, Communities and Local Government have published joint statutory guidance on the provision of accommodation for 16 and 17 year olds who may be homeless and/or require accommodation: [here](#).

### **So-called 'honour-based' abuse (including Female Genital Mutilation and Forced Marriage)**

So-called 'honour-based' abuse (HBA) encompasses incidents or crimes which have been committed to protect or defend the honour of the family and/or the community, including female genital mutilation (FGM), forced marriage, and practices such as breast ironing. Abuse committed in the context of preserving "honour" often involves a wider network of family or community pressure and can include multiple perpetrators. It is important to be aware of this dynamic and additional risk factors when deciding what form of safeguarding action to take. All forms of HBA are abuse (regardless of the motivation) and should be handled and escalated as such.

Professionals in all agencies, and individuals and groups in relevant communities, need to be alert to the possibility of a child being at risk of HBA, or already having suffered HBA.

### **Actions**

If staff have a concern regarding a child that might be at risk of HBA or who has suffered from HBA, they should speak to the designated safeguarding lead (or deputy). As appropriate, they will activate local safeguarding procedures, using existing national and local protocols for multi-agency liaison with police and children's social care. Where FGM has taken place, since 31 October 2015 there has been a mandatory reporting duty placed on **teachers**<sup>104</sup> that requires a different approach (see following section).

### **FGM**

FGM comprises all procedures involving partial or total removal of the external female genitalia or other injury to the female genital organs. It is illegal in the UK and a form of child abuse with long-lasting harmful consequences.

#### ***FGM mandatory reporting duty for teachers***

Section 5B of the Female Genital Mutilation Act 2003 (as inserted by section 74 of the Serious Crime Act 2015) places a statutory duty upon **teachers** along with regulated health and social care professionals in England and Wales, to report to the police where they discover (either through disclosure by the victim or visual evidence) that FGM appears to have been carried out on a girl under 18. Those failing to report such cases may face disciplinary sanctions. It will be rare for teachers to see visual evidence, and they should **not** be examining pupils or students, but the same definition of what is meant by "to discover that an act of FGM appears to have been carried out" is used for all professionals to whom this mandatory reporting duty applies. Information on when and how to make a report can be found at: [Mandatory reporting of female genital mutilation procedural information](#)

---

Teachers **must** personally report to the police cases where they discover that an act of FGM appears to have been carried out.<sup>105</sup> Unless the teacher has good reason not to, they should still consider and discuss any such case with the school's or college's designated safeguarding lead (or deputy) and involve children's social care as appropriate. The duty does not apply in relation to at risk or suspected cases (i.e. where the teacher does not discover that an act of FGM appears to have been carried out, either through disclosure by the victim or visual evidence) or in cases where the woman is 18 or over. In these cases, teachers should follow local safeguarding procedures. The following is a useful summary of the FGM mandatory reporting duty: [FGM Fact Sheet](#).

<sup>104</sup> Under Section 5B(11)(a) of the Female Genital Mutilation Act 2003, "teacher" means, in relation to England, a person within section 141A(1) of the Education Act 2002 (persons employed or engaged to carry out teaching work at schools and other institutions in England).

### **Forced marriage**

Forcing a person into a marriage is a crime in England and Wales. A forced marriage is one entered

into without the full and free consent of one or both parties and where violence, threats or any other form of coercion is used to cause a person to enter into a marriage. Threats can be physical or emotional and psychological. A lack of full and free consent can be where a person does not consent or where they cannot consent (if they have learning disabilities, for example). Nevertheless, some perpetrators use perceived cultural practices as a way to coerce a person into marriage. Schools and colleges can play an important role in safeguarding children from forced marriage.

The Forced Marriage Unit has published [statutory guidance](#) and [Multi-agency guidelines](#), pages 35-36 of which focus on the role of schools and colleges. School and college staff can contact the Forced Marriage Unit if they need advice or information: Contact: 020 7008 0151 or email [fmf@fco.gov.uk](mailto:fmf@fco.gov.uk).

### Preventing radicalisation

Children are vulnerable to extremist ideology and radicalisation. Similar to protecting children from other forms of harms and abuse, protecting children from this risk should be a part of a schools' or colleges' safeguarding approach.

- **Extremism**<sup>106</sup> is the vocal or active opposition to our fundamental values, including democracy, the rule of law, individual liberty and the mutual respect and tolerance of different faiths and beliefs. This also includes calling for the death of members of the armed forces.
- **Radicalisation**<sup>107</sup> refers to the process by which a person comes to support terrorism and extremist ideologies associated with terrorist groups.
- **Terrorism**<sup>108</sup> is an action that endangers or causes serious violence to a person/people; causes serious damage to property; or seriously interferes or disrupts an electronic system. The use or threat **must** be designed to influence the government or to intimidate the public and is made for the purpose of advancing a political, religious or ideological cause.

There is no single way of identifying whether a child is likely to be susceptible to an extremist ideology. Background factors combined with specific influences such as family and friends may contribute to a child's vulnerability. Similarly, radicalisation can occur through many different methods (such as social media or the internet) and settings (such as within the home).

However, it is possible to protect vulnerable people from extremist ideology and intervene to prevent those at risk of radicalisation being radicalised. As with other safeguarding risks, staff should be alert to changes in children's behaviour, which could indicate that they may be in need of help or protection. Staff should use their judgement in identifying children who might be at risk of radicalisation and act proportionately which may include the designated safeguarding lead (or deputy) making a Prevent referral.

The school's or college's designated safeguarding lead (and any deputies) should be aware of local procedures for making a Prevent referral.

### The Prevent duty

All schools and colleges are subject to a duty under section 26 of the Counter- Terrorism and Security Act 2015 (the CTSA 2015), in the exercise of their functions, to have "due regard"<sup>109</sup> to the need to prevent people from being drawn into terrorism".<sup>110</sup> This duty is known as the Prevent duty.

The Prevent duty should be seen as part of schools' and colleges' wider safeguarding obligations.

Designated safeguarding leads and other senior leaders should familiarise themselves with the revised [Prevent duty guidance: for England and Wales](#), especially paragraphs 57-76, which are specifically concerned with schools (and also covers childcare). The guidance is set out in terms of four general themes: risk assessment, working in partnership, staff training, and IT policies. There is additional guidance: [Prevent duty guidance: for further education institutions](#) in England and Wales that applies to colleges.

### Channel

Channel is a voluntary, confidential support programme which focuses on providing support at an early stage to people who are identified as being vulnerable to being drawn into terrorism. Prevent referrals may be passed to a multi-agency Channel panel, which will discuss the individual referred to determine whether they are vulnerable to being drawn into terrorism and consider the appropriate support required. A representative from the school or college may be asked to attend the Channel panel to help with this assessment. An individual's engagement with the programme is entirely voluntary at all stages.

Guidance on Channel is available at: [Channel guidance](#).

### *Additional support*

The department has published further advice for schools on the [Prevent duty](#). The advice is intended to complement the Prevent guidance and signposts to other sources of advice and support.

The Home Office has developed three e-learning modules:

- [Prevent awareness e-learning](#) offers an introduction to the Prevent duty.
- [Prevent referrals e-learning](#) supports staff to make Prevent referrals that are **robust, informed** and with **good intention**.
- [Channel awareness e-learning](#) is aimed at staff who may be asked to contribute to or sit on a multi-agency Channel panel.

[Educate Against Hate](#), is a government website designed to support school teachers and leaders to help them safeguard their students from radicalisation and extremism. The platform provides free information and resources to help school staff identify and address the risks, as well as build resilience to radicalisation.

For advice specific to further education, the Education and Training Foundation (ETF) hosts the [Prevent for FE and Training](#). This hosts a range of free, sector specific resources to support further education settings comply with the Prevent duty. This includes the Prevent Awareness e-learning, which offers an introduction to the duty, and the Prevent Referral e-learning, which is designed to support staff to make robust, informed and proportionate referrals.

The ETF Online Learning environment provides online training modules for practitioners, leaders and managers, support staff and governors/Board members outlining their roles and responsibilities under the duty.

### Peer on peer/ child on child abuse

Children can abuse other children. This is generally referred to as peer on peer abuse and can take many forms. This can include (but is not limited to): abuse within intimate partner relationships; bullying (including cyberbullying); sexual violence and sexual harassment; physical abuse such as

hitting, kicking, shaking, biting, hair pulling, or otherwise causing physical harm; sexting and initiation/hazing type violence and rituals.

## Sexual violence and sexual harassment between children in schools and colleges

### Context

Sexual violence and sexual harassment can occur between two children of **any** age and sex. It can also occur through a group of children sexually assaulting or sexually harassing a single child or group of children.

Children who are victims of sexual violence and sexual harassment will likely find the experience stressful and distressing. This will, in all likelihood, adversely affect their educational attainment. Sexual violence and sexual harassment exist on a continuum and may overlap, they can occur online and offline (both physical and verbal) and are never acceptable. It is important that **all** victims are taken seriously and offered appropriate support. Staff should be aware that some groups are potentially more at risk. Evidence shows girls, children with SEND and LGBT children are at greater risk.

Staff should be aware of the importance of:

- making clear that sexual violence and sexual harassment is not acceptable, will never be tolerated and is not an inevitable part of growing up;
- not tolerating or dismissing sexual violence or sexual harassment as “banter”, “part of growing up”, “just having a laugh” or “boys being boys”; and
- challenging behaviours (potentially criminal in nature), such as grabbing bottoms, breasts and genitalia, flicking bras and lifting up skirts. Dismissing or tolerating such behaviours risks normalising them.

### What is sexual violence and sexual harassment?

#### Sexual violence

It is important that school and college staff are aware of sexual violence and the fact children can, and sometimes do, abuse their peers in this way. When referring to sexual violence we are referring to sexual violence offences under the Sexual Offences Act 2003<sup>111</sup> as described below:

**Rape:** A person (A) commits an offence of rape if: he intentionally penetrates the vagina, anus or mouth of another person (B) with his penis, B does not consent to penetration and A does not reasonably believe that B consents.

**Assault by Penetration:** A person (A) commits an offence if: s/he intentionally penetrates the vagina or anus of another person (B) with a part of her/his body or anything else, the penetration is sexual, B does not consent to the penetration and A does not reasonably believe that B consents.

**Sexual Assault:** A person (A) commits an offence of sexual assault if: s/he intentionally touches another person (B), the touching is sexual, B does not consent to the touching and A does not reasonably believe that B consents.

**What is consent?**<sup>112</sup> Consent is about having the freedom and capacity to choose. Consent to sexual activity may be given to one sort of sexual activity but not another, e.g. to vaginal but not anal sex or penetration with conditions, such as wearing a condom. Consent can be withdrawn at any time during sexual activity and each time activity occurs. Someone consents to vaginal, anal or oral penetration

only if s/he agrees by choice to that penetration and has the freedom and capacity to make that choice.<sup>113</sup>

### *Sexual harassment*

When referring to sexual harassment we mean 'unwanted conduct of a sexual nature' that can occur online and offline. When we reference sexual harassment, we do so in the context of child on child sexual harassment. Sexual harassment is likely to: violate a child's dignity, and/or make them feel intimidated, degraded or humiliated and/or create a hostile, offensive or sexualised environment.

Whilst not intended to be an exhaustive list, sexual harassment can include:

- sexual comments, such as: telling sexual stories, making lewd comments, making sexual remarks about clothes and appearance and calling someone sexualised names;
- sexual "jokes" or taunting;
- physical behaviour, such as: deliberately brushing against someone, interfering with someone's clothes (schools and colleges should be considering when any of this crosses a line into sexual violence - it is important to talk to and consider the experience of the victim) and displaying pictures, photos or drawings of a sexual nature; and
- online sexual harassment. This may be standalone, or part of a wider pattern of sexual harassment and/or sexual violence.<sup>114</sup> It may include:

<sup>112</sup> It is important school and college staff (and especially designated safeguarding leads and their deputies) understand consent. This will be especially important if a child is reporting they have been raped. More information: [here](#).

<sup>113</sup> [PSHE Teaching about consent](#) from the PSHE association provides advice and lesson plans to teach consent at Key stage 3 and 4.

<sup>114</sup> [Project deSHAME](#) from Childnet provides useful research, advice and resources regarding online sexual harassment.

- non-consensual sharing of sexual images and videos;
- sexualised online bullying;
- unwanted sexual comments and messages, including, on social media;
- sexual exploitation; coercion and threats; and
- upskirting.

### **Upskirting<sup>115</sup>**

The Voyeurism (Offences) Act, which is commonly known as the Upskirting Act, came into force on 12 April 2019. 'Upskirting' is where someone takes a picture under a person's clothing (not necessarily a skirt) without their permission and/or knowledge, with the intention of viewing their genitals or buttocks (with or without underwear) to obtain sexual gratification, or cause the victim humiliation, distress or alarm. It is a criminal offence. Anyone of any gender, can be a victim.

### **The response to a report of sexual violence or sexual harassment**

The initial response to a report from a child is important. It is essential that all victims are reassured that they are being taken seriously and that they will be supported and kept safe. A victim should never be given the impression that they are creating a problem by reporting sexual violence or sexual harassment. Nor should a victim ever be made to feel ashamed for making a report.

If staff have a concern about a child or a child makes a report to them, they should follow the referral process as set out from paragraph 41 in Part one of this guidance. As is always the case, if staff are in any doubt as to what to do they should speak to the designated safeguarding lead (or a deputy).

## APPENDIX 4

## Effects of domestic abuse on children and young people

**The impact of domestic abuse on the quality of a child's or young person's life is very significant. Children and young people who live with domestic abuse are at increased risk of behavioural problems, emotional trauma, and mental health difficulties in adult life.**

The impact of domestic abuse on children and young people can be wide-ranging and may include effects in any or all of the following areas:

**Physical:** Children and young people can be hurt either by trying to intervene and stopping the violence or by being injured themselves by the abuser. They may develop self-harming behaviour, or eating disorders. Their health could be affected, as they may not be being cared for appropriately. They may have suicidal thoughts or try to escape or blank out the abuse by using drugs, alcohol or by running away.

**Sexual:** There is a high risk that children and young people will be abused themselves where there is domestic abuse. In homes where living in fear is the norm, and situations are not discussed, an atmosphere of secrecy develops and this creates a climate in which sexual abuse could occur. In addition to this, children and young people may sometimes be forced to watch the sexual abuse of their mother/carer. This can have long-lasting effects on the sexual and emotional development of the child/young person.

**Economic:** The parent or carer of the child or young person may have limited control over the family finances. Therefore, there might be little or no money available for extra-curricular activities, clothing or even food, impacting on their health and development.

**Emotional:** Children and young people will often be very confused about their feelings – for example, loving both parents/carers but not wanting the abuse to continue. They may be given negative messages about their own worth, which may lead to them developing low self-esteem. Many children and young people feel guilty, believing that the abuse is their fault. They are often pessimistic about their basic needs being met and can develop suicidal thoughts. Some children and young people may internalise feelings and appear passive and withdrawn or externalise their feelings in a disruptive manner.

**Isolation:** Children and young people may become withdrawn and isolated; they may not be allowed out to play; and if there is abuse in the home they are less likely to invite their friends round. Schooling may be disrupted in many ways, and this may contribute to their growing isolation. They may frequently be absent from school as they may be too scared to leave their mother alone. They may have to move away from existing friends and family – e.g. into a refuge or other safe or temporary accommodation.

**Threats:** Children and young people are likely to have heard threats to harm their mother/father. They may have been directly threatened with harm or heard threats to harm their pet. They also live under the constant and unpredictable threat of violence, resulting in feelings of intimidation, fear and vulnerability, which can lead to high anxiety, tension, confusion and stress. This clearly highlights that living with domestic abuse has a significant impact on a child's ability to achieve the five outcomes as outlined in the *Every Child Matters* agenda:

- be healthy;
- stay safe;
- enjoy and achieve;

- make a positive contribution;
- achieve economic well-being.

### What you might see in school

- Unexplained absences or lateness – either from staying at home to protect their parent or hide their injuries, or because they are prevented from attending school;
- Children and young people attending school when ill rather than staying at home;
- Children and young people not completing their homework, or making constant excuses, because of what is happening at home;
- Children and young people who are constantly tired, on edge and unable to concentrate through disturbed sleep or worrying about what is happening at home;
- Children and young people displaying difficulties in their cognitive and school performance;
- Children and young people whose behaviour and personality changes dramatically;
- Children and young people who become quiet and withdrawn and have difficulty in developing positive peer relations;
- Children and young people displaying disruptive behaviour or acting out violent thoughts with little empathy for victims;
- Children and young people who are no trouble at all.
- This list is not exhaustive – this is intended to give you an idea of some of the types of behaviour that could be presented.

### What schools can do

**Schools can create an environment which both promotes their belief and commitment that domestic abuse is not acceptable, and that they are willing to discuss and challenge it.**

For many victims, the school might be the one place that they visit without their abusive partner.

It would help if schools displayed posters or had cards/pens available with information about domestic abuse and contact details for useful agencies: for example, NSPCC **0808 800 5000** and ChildLine **0800 11 11**; Parentline **0808 800 2222**; Worcestershire's Forum Against Domestic Abuse and Sexual Violence (WFADSA) [website](#) and West Mercia Women's Aid 24 hr. helpline: **0800 980 3331**.

West Mercia Constabulary - Police Domestic Abuse Units 101.

Research shows that the repeated use of physical, sexual, psychological and financial abuse is one of the ways in which male power is used to control women. The underlying attitudes which legitimate and perpetuate violence against women should be challenged by schools as part of the whole school ethos.

### Schools can support individual children and young people by:

- Introducing a **whole-school philosophy** that domestic abuse is unacceptable;
- **Responding to disclosures** and potential child protection concerns; recognising that domestic abuse and forced marriage may be a child protection concern; policies and procedures must include domestic abuse;
- **Giving emotional support** – the child or young person might need referral to a more specialist service or need additional support to complete coursework, exams etc.;
- **Facilitating a peer support network** – children and young people can become isolated but often welcome talking to friends about their problems;

- **Offering practical support** – if children or young people are new to the school they may not yet have a uniform, they may also need financial help with extra-curricular activities, or they may be unfamiliar with the syllabus, the area, where to hang out, etc.;
- **Providing somewhere safe and quiet** to do their homework or just to sit and think;
- **Improving the self-esteem and confidence** of children and young people by:
  - offering them opportunities to take on new roles and responsibilities;
  - offering tasks which are achievable and giving praise and encouragement;
  - monitoring their behaviour and setting clear limits;
  - criticising the action, not the person;
  - helping them to feel a sense of control in their school lives;
  - involving them in decision making;
  - helping them to be more assertive;
  - respecting them as individuals;
  - encouraging involvement in extra-curricular activities.

#### From The Expect Respect Education Toolkit – Women’s Aid

#### Advice for schools on receiving notification of a Domestic Abuse incident

##### Background

Following a call to a domestic abuse incident where children are involved, Police notify Social Care and Health. A domestic abuse triage meeting takes place each day within the Multi-Agency Safeguarding Hub (MASH) where the notifications are sorted into low, medium and high risk, depending on the perceived level of risk to the children. For those cases that are classified medium or high, the school DSL will receive an e-mail via their secure communications system on the Children's Services Portal, from the Family Front Door informing them that an incident has taken place and giving them a copy of the Police log. For high risk cases, they will also be contacted by telephone and asked whether they have any concerns about the children at school. Social Care will also inform parents that the notification has been received and shared with other agencies and that the information will be treated confidentially.

##### School action

On receiving this information, the DSL should:

- Log the information and keep the record alongside other information/concerns that the school has on this child/family, with all other confidential CP records in a secure place. This will allow the school to recognise any pattern and/or frequency of notifications and take appropriate action. **Please note that school may receive further communication about this same incident, once further assessment of the situation has been undertaken by Police – be careful not to log this as a separate incident.**
- Inform any staff of notification on a 'need to know' only basis – e.g. class teacher/form tutor.
- Alert all staff who teach pupil/student with minimum of information – e.g. 'This pupil/student may need extra support / may need extra time to complete homework'.
- Monitor pupil/student behaviour in school (including attendance) and should concerns arise which may be attributed to the impact of the incident, consult with Social Care through the Family Front Door as the concerns may be significant and lead to new safeguarding action, or to seek advice on how to proceed.
- Provide appropriate support for child, **if required** – do not question pupil/student about the incident. Respect the child's decision on whether or not they wish to discuss the situation.
- Provide appropriate support for adult, **if asked** – e.g. helpline number (0800 980 3331) or [website address](#).

**Bear in mind**

- Victim of incident may be anxious that the information will be shared inappropriately.
- Notification may not give details as to which parent is the perpetrator/victim – any disclosure to the 'wrong' parent could heighten risk.
- Need to be aware who is 'connected' to the child – e.g. TA/lunchtime supervisor may be child's relative / friend of the family.
- **Inappropriate sharing of information could heighten the risk for the victim and/or the child.**

**If in doubt, consult with the Family Front Door (01905 822666)**

## APPENDIX 5

### Forced Marriage – a form of Domestic Abuse and a crime in England and Wales

**Forced Marriage should be recognised as a human rights abuse – and should always invoke child protection procedures within the school.**

A forced marriage is one entered into without the full and free consent of one or both parties, and where violence, threats or any other form of coercion is used to cause a person to enter into a marriage. Threats can be physical or emotional and psychological. A lack of full and free consent can be where a person does not consent or where they cannot consent (if they have learning disabilities, for example). Nevertheless, some communities use religion and culture as a way to coerce a person into marriage.

A forced marriage is not the same as an arranged marriage – in an arranged marriage the families take a leading role in choosing the marriage partner. The marriage is entered into freely by both people.

#### Warning signs

Warning signs can include a sudden drop in performance, truancy from lessons and conflicts with parents over continuation of the student's education. There may be excessive parental restrictions and control, a history of domestic abuse within the family, or extended absence through sickness or overseas commitments. Students may also show signs of depression or self-harming, and there may be a history of older siblings leaving education early to get married.

#### The justifications

Most cases of forced marriage in the UK involve South Asian families. This is partially a reflection of the fact that there is a large established South Asian population in the UK. It is clear, however, that forced marriage is not a solely South Asian phenomenon — there have been cases involving families from East Asia, the Middle East, Europe and Africa.

Some forced marriages take place in the UK with no overseas element, while others involve a partner coming from overseas, or a British citizen being sent abroad. Parents who force their children to marry often justify it as protecting them, building stronger families and preserving cultural or religious traditions. They may not see it as wrong.

Forced marriage can never be justified on religious grounds: every major faith condemns it and freely given consent is a pre-requisite of Christian, Jewish, Hindu, Muslim and Sikh marriage.

#### Culture

Often parents believe that they are upholding the cultural traditions of their home countries, when in fact practices and values there have changed. Some parents come under significant pressure from their extended families to get their children married.

#### The law

Sexual intercourse without consent is rape, regardless of whether this occurs within the confines of a marriage. A girl who is forced into marriage is likely to be raped and may be raped until she becomes pregnant.

In addition, the Forced Marriage (Civil Protection) Act (2007) makes provision for protecting children, young people and adults from being forced into marriage without their full and free consent through Forced Marriage Protection Orders. Breaching a Forced Marriage Protection Order is a criminal offence.

The Anti-Social Behaviour, Crime and Policing Act 2014 makes it a criminal offence, with effect from 16th June 2014, to force someone to marry. This includes:

- Taking someone overseas to force them to marry (whether or not the marriage takes place);

- Marrying someone who lacks the mental capacity to consent to the marriage (whether they're pressured into it or not).

### **What to do if a student seeks help**

- The student should be seen immediately in a private place, where the conversation cannot be overheard.
- The student should be seen on her own, even if she attends with others.
- Develop a safety plan in case the student is seen i.e. prepare another reason why you are meeting.
- Explain all options to the student and recognise and respect her wishes. If the student does not want to be referred to Children's Services, you will need to consider whether to respect the student's wishes — or whether the student's safety requires further action to be taken. If you take action against the student's wishes you must inform the student.
- Establish whether there is a family history of forced marriage — i.e. siblings forced to marry.
- Advise the student not to travel overseas and discuss the difficulties she may face.
- Seek advice from the Forced Marriage Unit.
- Liaise with Police and Children's Services to establish if any incidents concerning the family have been reported.
- Refer to Police if there is any suspicion that there has been a crime or that one may be committed.
- Refer the student with her consent to the appropriate local and national support groups, and counselling services.

### **What to do if the student is going abroad imminently**

The Forced Marriage Unit advises education professionals to gather the following information if at all possible — it will help the unit to locate the student and to repatriate her:

- a photocopy of the student's passport for retention — encourage her to keep details of her passport number and the place and date of issue
- as much information as possible about the family (this may need to be gathered discretely)
- full name and date of birth of student under threat
- student's father's name
- any addresses where the student may be staying overseas
- potential spouse's name
- date of the proposed wedding
- the name of the potential spouse's father if known
- addresses of the extended family in the UK and overseas

### ***Specific information***

It is also useful to take information that only the student would know, as this may be helpful during any interview at an embassy or British High Commission — in case another person of the same age is produced pretending to be the student.

Professionals should also take details of any travel plans and people likely to accompany the student. Note also the names and addresses of any close relatives remaining in the UK and a safe means to contact the student — a secret mobile telephone, for example, that will function abroad.

### **Forced marriage: what educators should NOT do**

- treat such allegations merely as domestic issues and send the student back to the family home
- ignore what the student has told you or dismiss the need for immediate protection

- approach the student's family or those with influence within the community, without the express consent of the student, as this will alert them to your concern and may place the student in danger
- contact the family in advance of any enquires by the Police, Children's Services or the Forced Marriage Unit, either by telephone or letter
- share information outside child protection information sharing protocols without the express consent of the student
- breach confidentiality except where necessary in order to ensure the student's safety
- attempt to be a mediator

Further guidance is available from The Forced Marriage Unit:

## APPENDIX 6

**Female Genital Mutilation (FGM) – a form of Human Rights Abuse****What is FGM?**

FGM includes procedures that intentionally alter or injure the female genital organs for non-medical reasons.

There are four known types of FGM, all of which have been found in the UK:

**Type 1** – clitoridectomy: partial or total removal of the clitoris and, in very rare cases, only the prepuce (the fold of skin surrounding the clitoris)

**Type 2** – excision: partial or total removal of the clitoris and the labia minora, with or without excision of the labia majora (the labia are the 'lips' that surround the vagina)

**Type 3** – infibulation: narrowing of the vaginal opening through the creation of a covering seal. The seal is formed by cutting and repositioning the inner, or outer, labia, with or without removal of the clitoris

**Type 4** – other: all other harmful procedures to the female genitalia for non-medical purposes, e.g., pricking, piercing, incising, scraping and cauterising the genital area.

FGM is sometimes known as 'female genital cutting' or female circumcision. Communities tend to use local names for this practice, including 'sunna'.

**Why is FGM carried out?**

It is believed that:

- It brings status and respect to the girl and that it gives a girl social acceptance, especially for marriage.
- It preserves a girl's virginity/chastity.
- It is part of being a woman as a rite of passage.
- It upholds the family honour.
- It cleanses and purifies the girl.
- It gives the girl and her family a sense of belonging to the community.
- It fulfills a religious requirement believed to exist.
- It perpetuates a custom/tradition.
- It helps girls and women to be clean and hygienic.
- It is cosmetically desirable.
- It is mistakenly believed to make childbirth safer for the infant.

Religion is sometimes given as a justification for FGM. For example, some people from Muslim communities argue that the Sunna (traditions or practices undertaken or approved by the prophet Mohammed) recommends that women undergo FGM, and some women have been told that having FGM will make them 'a better Muslim'. However, senior Muslim clerics at an international conference on FGM in Egypt in 2006 pronounced that FGM is not Islamic, and the London Central Mosque has spoken out against FGM on the grounds that it constitutes doing harm to oneself or to others, which is forbidden by Islam.

**Within which communities is FGM known to be practised?**

According to the Home Office it is estimated that up to 24,000 girls under the age of 15 are at risk of FGM.

UK communities that are most at risk of FGM include Kenyan, Somali, Sudanese, Sierra Leone, Egyptian, Nigerian and Eritrean, as well as non-African communities including Yemeni, Afghani, Kurdish, Indonesian and Pakistani.

Obviously, this not to say that all families from the communities listed above practise FGM, and many parents will refuse to have their daughters subjected to this procedure. However, in some communities a great deal of pressure can be put on parents to follow what is seen as a cultural or religious practice.

### **Is FGM harmful?**

FGM is extremely harmful and is often described as brutal because of the way it is carried out, and its short and long-term effects on physical and psychological health.

FGM is carried out on children between the ages of 0 and 15, depending on the community in which they live. It is often carried out without any form of sedation and without sterile conditions. The girl or young woman is held down while the procedure of cutting takes place and survivors describe extreme pain, fear and feelings of abandonment.

Where the vagina is cut and then sewn up, only a very small opening may be left. This is often seen as a way to ensure that when the girl enters marriage, she is a virgin. In some communities the mother of the future husband and the girl's own mother will take the girl to be cut open before the wedding night.

Repeat urinal tract infections are a common problem for women who have undergone FGM, and for some, infections come from menstruation being restricted. Many women have problems during pregnancy and childbirth. The removal of the clitoris denies women physical pleasure during sexual activity and some groups will practise complete removal to ensure chastity.

### **Is it illegal?**

FGM is internationally recognised as a violation of the human rights of girls and women, and is illegal in most countries – including the UK. The Female Genital Mutilation Act 2003 came into force in 2004:

The act makes it illegal to:

- practise FGM in the UK
- take girls who are British nationals or permanent residents of the UK abroad for FGM, whether or not it is lawful in that country
- aid and abet, counsel or procure the carrying out of FGM abroad.

The offence carries a penalty of up to 14 years in prison, and/or a fine.

### **Signs, symptoms and indicators**

The following list of possible signs and indicators are not diagnostic, but are offered as a guide as to what kind of things should alert professionals to the possibility of FGM.

Things that may point to FGM happening:

- a child talking about getting ready for a special ceremony
- a family arranging a long break abroad
- a child's family being from one of the 'at-risk' communities for FGM (see above)
- knowledge that an older sibling has undergone FGM
- a young person talks of going abroad to be 'cut', or get ready for marriage

Things that may indicate a child has undergone FGM:

- prolonged absence from school or other activities
- behaviour change on return from a holiday abroad, such as the child being withdrawn and appearing subdued
- bladder or menstrual problems
- finding it difficult to sit still, and looking uncomfortable
- complaining about pain between their legs
- mentioning something somebody did to them that they are not allowed to talk about

- secretive behaviour, including isolating themselves from the group
- reluctance to take part in physical activity
- repeated urinal tract infection
- disclosure.

### **What should schools do?**

Where schools have a concern about a child, they should contact Children's Social Care Services. If the concerns are based on more concrete indicators – i.e., the young person says this is going to happen to them, or disclosure that it has happened to them or to an older sister – schools should make a child protection referral and inform the Police as required by the mandatory reporting duty. Schools should not:

- contact the parents before seeking advice from children's social care;
- make any attempt to mediate between the child/young person and parents.

It is important to keep in mind that the parents may not see FGM as a form of abuse; however, they may be under a great deal of pressure from their community and or family to subject their daughters to it. Some parents from identified communities may seek advice and support as to how to resist and prevent FGM for their daughters, and education about the harmful effects of FGM may help to make parents feel stronger in resisting the pressure of others in the community. Remember that religious teaching does not support FGM.

### **The 'one chance' rule**

In the same way that we talk about the 'one chance rule' in respect of young people coming forward with fears that they may be forced into marriage, young people disclosing fears that they are going to be sent abroad for FGM are taking the 'one chance', of seeking help.

It is essential that we take such concerns seriously and act without delay. Never underestimate the determination of parents who have decided that it is right for their daughter to undergo FGM.

Attempts to mediate may place the child/young person at greater risk, and the family may feel so threatened at the news of their child's disclosure that they bring forward their plans or take action to silence her.

### **Mandatory Reporting Duty**

Where FGM has taken place, since 31 October 2015 there has been a mandatory reporting duty placed on teachers. Section 5B of the Female Genital Mutilation Act 2003 (as inserted by section 74 of the Serious Crime Act 2015) places a statutory duty upon teachers in England and Wales, to personally report to the police where they discover (either through disclosure by the victim or visual evidence) that FGM appears to have been carried out on a girl under 18. Those failing to report such cases will face disciplinary sanctions. Further information on when and how to make a report can be found in the following Home Office guidance: '[Mandatory Reporting of Female Genital Mutilation - procedural information](#)' (October 2015).

## APPENDIX 7

## SEXTING

**What is sexting?**

Sexting is the exchange of self-generated sexually explicit images, through mobile picture messages or webcams over the internet.

Sexting is often seen as flirting by children and young people who think that it's part of normal life. Often, incidents of sexting are not clear-cut or isolated; schools may encounter a variety of scenarios. Sexting incidents can be divided into two categories – aggravated and experimental<sup>3</sup>:

**Aggravated incidents of sexting** involve criminal or abusive elements beyond the creation of an image. These include further elements, adult involvement or criminal or abusive behaviour by minors such as sexual abuse, extortion, threats, malicious conduct arising from personal conflicts, or creation or sending or showing of images without the knowledge or against the will of a minor who is pictured.

**Experimental incidents of sexting** involve youths taking pictures of themselves to share with established boy or girlfriends, to create romantic interest in other youth, or for reasons such as attention seeking. There is no criminal element (and certainly no criminal intent) beyond the creation and sending of the images and no apparent malice or lack of willing participation. The consequences of sexting can be devastating for young people. In extreme cases it can result in suicide or a criminal record, isolation and vulnerability. Young people can end up being criminalised for sharing an apparently innocently image which may have, in fact, been created for exploitative reasons.

Because of the prevalence of sexting, young people are not always aware that their actions are illegal. In fact, sexting as a term is not something that is recognised by young people and the 'cultural norms' for adults can be somewhat different. Some celebrities have made comments which appear to endorse sexting – 'it's okay, as long as you hide your face' - giving the impression that sexting is normal and acceptable. However, in the context of the law it is an illegal activity and young people must be made aware of this.

**The Law** - Much of the complexity in responding to youth produced sexual imagery is due to its legal status. Making, possessing and distributing any imagery of someone under 18 which is 'indecent' is illegal. This includes imagery of yourself if you are under 18. 'Indecent' is not defined in legislation. For most purposes, if imagery contains a naked young person, a topless girl, and/or displays genitals or sex acts, including masturbation, then it will be considered indecent. Indecent images may also include overtly sexual images of young people in their underwear.

The law criminalising indecent images of children was created long before mass adoption of the internet, mobiles and digital photography. It was also created to protect children and young people from adults seeking to sexually abuse them or gain pleasure from their sexual abuse. It was not intended to criminalise children. Despite this, young people who share sexual imagery of themselves, or peers, are breaking the law.

The National Police Chiefs Council (NPCC) has made clear that incidents involving youth produced sexual imagery should primarily be treated as safeguarding issues. Schools may respond to incidents without involving the police. Where the police are notified of incidents of youth produced sexual imagery they are obliged, under the Home Office Counting rules and National Crime Recording Standards, to record the incident on their crime systems. The incident will be listed as a 'crime' and the young person involved will be listed as a 'suspect.' ***This is not the same as having a criminal record.***

Every 'crime' recorded on police systems has to be assigned an outcome from a predefined list of outcome codes. As of January 2016, the Home Office launched a new outcome code (outcome 21) to help formalise the discretion available to the police when handling crimes such as youth produced sexual imagery. This means that even though a young person has broken the law and the police could provide evidence that they have done so, the police can record that they chose not to take further action as it was not in the public interest.

### **Action to take in the case of an incident of sexting**

#### **Step 1 – Disclosure by a student**

Sexting disclosures should follow the normal safeguarding practices and protocols. A student is likely to be very distressed especially if the image has been circulated widely and if they don't know who has shared it, seen it or where it has ended up. They will need pastoral support during the disclosure and after the event. They may even need immediate protection or a referral to Social Care.

The following questions will help decide upon the best course of action:

- Is the student disclosing about themselves receiving an image, sending an image or sharing an image?
- What sort of image is it? Is it potentially illegal or is it inappropriate?
- Are the school child protection and safeguarding policies and practices being followed? For example, has the DSL been consulted and is their advice and support available?
- How widely has the image been shared and is the device in their possession?
- Is it a school device or a personal device?
- Does the student need immediate support and or protection?
- Are there other students and or young people involved?
- Do they know where the image has ended up?

This situation will need to be handled very sensitively. Whatever the nature of the incident, ensure school safeguarding and child protection policies and practices are adhered to.

#### **Step 2 – Searching a device**

It is highly likely that the image will have been created and potentially shared through mobile devices. The image may not be on one single device, but may be on a website or on a multitude of devices; it may be on either a school-owned or personal device. It is important to establish the location of the image but be aware that this may be distressing for the young person involved, so be conscious of the support they may need.

When searching a mobile device the following conditions should apply:

- The action is in accordance with the school's child protection and safeguarding policies
- The search is conducted by the head teacher or a person authorised by them
- A member of the safeguarding team is present
- The search is conducted by a member of the same sex

If any illegal images of a child are found you should consider whether to inform the police. As a general rule it will almost always be proportionate to refer any incident involving "aggravated" sharing of images to the police, whereas purely "experimental" conduct may proportionately be dealt with without such referral, most particularly if it involves the child sharing images of themselves.

Any conduct involving, or possibly involving, the knowledge or participation of adults should always be referred to the police.

If an "experimental" incident is not referred to the police the reasons for this should be recorded in writing.

Always put the child first. Do not search the device if this will cause additional stress to the student/person whose image has been distributed.

If there is an indecent image of a child on a website or a social networking site then you should report the image to the site hosting it. In the case of a sexting incident involving a child or young person where you feel that they may be at risk of abuse then you should report the incident directly to CEOP [www.ceop.police.uk/ceop-report](http://www.ceop.police.uk/ceop-report), so that law enforcement can make an assessment, expedite the case with the relevant provider and ensure that appropriate action is taken to safeguard the child.

### Step 3 – What to do and not do with the image

If the image has been shared across a personal mobile device:

- Confiscate and secure the device;
  - Don't view the image unless there is a clear reason to do so;
  - Don't send, share or save the image anywhere;
  - Don't allow students to view images or send, share or save them anywhere.
- 
- If the image has been shared across a school network, a website or social network:
  - Block the network to all users and isolate the image;
  - Don't send or print the image;
  - Don't move the material from one place to another;
  - Don't view the image outside of the protocols of your safeguarding policies and procedures.

### Step 4 – Who should deal with the incident?

Whoever the initial disclosure is made to must act in accordance with the school safeguarding policy, ensuring that the DSL or a senior member of staff is involved in dealing with the incident.

The DSL should always record the incident. Senior management should also always be informed. There may be instances where the image needs to be viewed and this should be done in accordance with protocols. The best interests of the child should always come first; if viewing the image is likely to cause additional stress, staff should make a judgement about whether or not it is appropriate to do so.

### Step 5 - Deciding on a response

There may be a multitude of reasons why a student has engaged in sexting – it may be a romantic/sexual exploration scenario or it may be due to coercion.

It is important to remember that it won't always be appropriate to inform the police; this will depend on the nature of the incident. However, as a school it is important that incidents are consistently recorded. It may also be necessary to assist the young person in removing the image from a website or elsewhere.

If indecent images of a child are found:

- Act in accordance with your child protection and safeguarding policy, e.g. notify DSL
- Store the device securely
- Carry out a risk assessment in relation to the young person (see Appendix B of the Safeguarding Children in Education Guidance for a Sexting Risk Assessment pro-forma and flow chart)
- Make a referral if needed
- Contact the police (if appropriate)
- Put the necessary safeguards in place for the student, e.g. they may need counselling support, immediate protection and parents must also be informed.
- Inform parents and/or carers about the incident and how it is being managed.

**Step 6 – Contacting other agencies (making a referral)**

If the nature of the incident is high-risk, consider contacting Children's Social Care. Depending on the nature of the incident and the response you may also consider contacting local police or referring the incident to CEOP.

Understanding the nature of the incident, whether experimental or aggravated, will help to determine the appropriate course of action.

**Step 7 – Containing the incident and managing pupil reaction**

Sadly, there are cases in which victims of sexting have had to leave or change schools because of the impact the incident has had on them. The student will be anxious about who has seen the image and where it has ended up. They will seek reassurance regarding its removal from the platform on which it was shared. They are likely to need support from the school, their parents and their friends. Education programmes can reinforce to all students the impact and severe consequences that this behaviour can have. Consider engaging with your local police and asking them to talk to the students.

Other staff may need to be informed of incidents and should be prepared to act if the issue is continued or referred to by other students. The school, its students and parents should be on high alert, challenging behaviour and ensuring that the victim is well cared for and protected. The students' parents should usually be told what has happened so that they can keep a watchful eye over their child, especially when they are online at home.

Creating a supportive environment for students in relation to the incident is very important.

**Step 8 – Reviewing outcomes and procedures to prevent further incidences**

As with all incidents, a review process ensures that the matter has been managed effectively and that the school has the capacity to learn and improve its handling procedures. Incidents of sexting can be daunting for a school to manage, especially if the image has been widely shared between pupils in school.

Further information is available from the [NSPCC](#)

## APPENDIX 8

## RADICALISATION AND EXTREMISM

**Preventing Radicalisation**

Children are vulnerable to extremist ideology and radicalisation. Similar to protecting children from other forms of harms and abuse, protecting children from this risk should be a part of a schools' safeguarding approach.

**Extremism** is the vocal or active opposition to our fundamental values, including the rule of law, individual liberty and the mutual respect and tolerance of different faiths and beliefs. This also includes calling for the death of members of the armed forces.

**Radicalisation** refers to the process by which a person comes to support terrorism and extremist ideologies associated with terrorist groups.

**What is Prevent?**

Prevent is the Government's strategy to stop people becoming terrorists or supporting terrorism, **in all its forms**. Prevent works at the pre-criminal stage by using early intervention to encourage individuals and communities to challenge extremist and terrorist ideology and behaviour. The Counter-Terrorism and Security Act (2015), places a duty on specified authorities, including schools and colleges, to have due regard to the need to prevent people from being drawn into terrorism ("the Prevent duty"). The Prevent duty reinforces existing duties placed upon educational establishments for keeping children safe by:

- Ensuring a broad and balanced curriculum is in place schools to promote the spiritual, moral, social and cultural development of pupils;
- Assessing the risk of pupils being drawn into extremist views;
- Ensuring safeguarding arrangements by working in partnership with local authorities, police and communities;
- Training staff to provide them with the knowledge and ability to identify pupils at risk;
- Keeping pupils safe online, using effective filtering and usage policies.

**Warning Signs/Indicators of Concern**

There is no such thing as a "typical extremist": those who become involved in extremist actions come from a range of backgrounds and experiences, and most individuals, even those who hold radical views, do not become involved in violent extremist activity.

Pupils may become susceptible to radicalisation through a range of social, personal and environmental factors. It is vital that school staff are able to recognise those vulnerabilities.

However, this list is not exhaustive, nor does it mean that all young people experiencing the above are at risk of radicalisation for the purposes of violent extremism.

Factors which may make pupils more vulnerable may include:

- **Identity Crisis:** the pupil is distanced from their cultural/religious heritage and experiences discomfort about their place in society.
- **Personal Crisis:** the pupil may be experiencing family tensions; a sense of isolation; low self-esteem; they may have dissociated from their existing friendship group and become involved with a new and different group of friends; they may be searching for answers to questions about identity, faith and belonging.
- **Personal Circumstances:** migration; local community tensions and events affecting the pupil's country or region of origin may contribute to a sense of grievance that is triggered by personal experience of racism or discrimination or aspects of Government policy.

- **Unmet Aspirations:** the pupil may have perceptions of injustice; a feeling of failure; rejection of civic life.
- **Experiences of Criminality:** involvement with criminal groups, imprisonment, poor resettlement or reintegration.
- **Special Educational Need:** pupils may experience difficulties with social interaction, empathy with others, understanding the consequences of their actions and awareness of the motivations of others.

Pupils who are vulnerable to radicalisation may also be experiencing:

- Substance and alcohol misuse
- Pressure
- Influence from older people or via the Internet
- Bullying
- Domestic violence
- Race/hate crime

**Behaviours which may indicate a child is at risk of being radicalised or exposed to extremist views could include:**

- Being in contact with extremist recruiters and/or spending increasing time in the company of other suspected extremists;
- Loss of interest in other friends and activities not associated with the extremist ideology, group or cause;
- Pupils accessing extremist material online, including through social networking sites;
- Possessing or accessing materials or symbols associated with an extremist cause;
- Using extremist narratives and a global ideology to explain personal disadvantage;
- Pupils voicing opinions drawn from extremist ideologies and narratives, this may include justifying the use of violence to solve societal issues;
- Graffiti symbols, writing or art work promoting extremist messages or images;
- Significant changes to appearance and/or behaviour increasingly centred on an extremist ideology, group or cause;
- Changing their style of dress or personal appearance to accord with the group;
- Attempts to recruit others to the group/cause;
- Using insulting to derogatory names for another group;
- Increase in prejudice-related incidents committed by that person – these may include:
  - physical or verbal assault
  - provocative behaviour
  - damage to property
  - derogatory name calling
  - possession of prejudice-related materials
  - prejudice related ridicule or name calling
  - inappropriate forms of address
  - refusal to co-operate
  - attempts to recruit to prejudice-related organisations
  - condoning or supporting violence towards others
  - Parental reports of changes in behaviour, friendship or actions and requests for assistance;

- Partner schools, local authority services, and police reports of issues affecting pupils in other schools

### **Referral Process**

All concerns about young people vulnerable to radicalisation should be referred to the DSL in the first instance. The DSL will follow safeguarding procedures including:

- Talking to the young person about their behaviour/views/on-line activity/friends etc.;
- Discussion with parents/carers about the concerns;
- Checking out on-line activity, including social media if possible;
- Providing in-house support, if available;
- Providing Early Help targeted support if necessary.

If concerns persist, then the DSL should complete the Channel Referral Form (available from the WSCB website) and submit to the Family Front Door via a Cause for Concern Notification, normally with the knowledge and consent of the young person.

The referral will then be subject to a triage process to decide whether or not it meets the threshold for a referral. If it does, the DSL should be prepared to attend the Channel Panel meeting to share the concerns and help identify any intervention required. Further feedback to the Channel Panel will be expected following intervention to decide whether there are still concerns.

Further information can be found in the [WSCB regional procedures](#).

## APPENDIX 9

### COVID-19

This appendix reflects the updated advice received from our local safeguarding partners, and from Worcestershire County Council.

#### 1. Scope and definitions

This addendum applies during the period of phased return following school closure due to COVID-19. It reflects updated advice from our local safeguarding partners and the local authority (LA) Worcestershire County Council.

It sets out changes to our normal child protection policy in light of the Department for Education's guidance [Coronavirus: safeguarding in schools, colleges and other providers](#), and should be read in conjunction with that policy.

Unless covered here, our normal child protection policy continues to apply.

The Department for Education's definition of 'vulnerable children' includes those who:

- Are assessed as being in need, including children:
  - With a child protection plan
  - With a child in need plan
  - Looked after by the local authority
- Have an education, health and care (EHC) plan
- Have been assessed as otherwise vulnerable by educational providers or LAs, for example those who are:
  - On the edge of receiving support from children's social care services
  - Adopted
  - At risk of becoming NEET ('not in employment, education or training')
  - Living in temporary accommodation
  - Young carers
  - Considered vulnerable at the provider and LA's discretion

#### 2. Core safeguarding principles

We will still have regard to the statutory safeguarding guidance, [Keeping Children Safe in Education](#).

Although we are operating in a different way to normal, we are still following these important safeguarding principles:

- The best interests of children must come first
- If anyone has a safeguarding concern about any child, they should continue to act on it immediately
- A designated safeguarding lead (DSL) or deputy should be available at all times (see section 4 for details of our arrangements)

- It's essential that unsuitable people don't enter the school workforce or gain access to children
- Children should continue to be protected when they are online

### 3. Reporting concerns

All staff and volunteers must continue to act on any concerns they have about a child immediately. It is still vitally important to do this, both for children continuing to attend or returning to school and those at home.

We continue to use MyConcerns as the central mechanism for reporting safeguarding concerns, outlining actions and reviewing outcomes.

As a reminder, all staff should continue to work with and support children's social workers, where they have one, to help protect vulnerable children.

### 4. DSL (and deputy) arrangements

We aim to have a trained DSL or deputy DSL on site wherever possible. Details of all important contacts are listed in the 'Important contacts' section at the start of this addendum.

If our DSL (or deputy) can't be in school, they can be contacted remotely by using email or Microsoft Teams.

If our DSL (or deputy) is unavailable, the Deputy Principal/Principal can be contacted.

We will keep all school staff and volunteers informed by email/microsoft teams as to who will be the DSL (or deputy) on any given day, and how to contact them.

We will ensure that DSLs (and deputies), wherever their location, know who the most vulnerable children in our school are.

On occasions where there is no DSL or deputy on site, a senior leader will take responsibility for co-ordinating safeguarding.

The senior leader will be responsible for liaising with the off-site DSL (or deputy) to make sure they (the senior leader) can:

- Identify the most vulnerable children in school
- Update and manage access to child protection files, where necessary
- Liaise with children's social workers where they need access to children in need and/or to carry out statutory assessments
- Monitor MyConcerns and make referrals for urgent safeguarding concerns to the Family Front Door.

### 5. Working with other agencies

We will continue to work with children's social care and with virtual school heads for looked-after and previously looked-after children.

We will continue to update this addendum where necessary, to reflect any updated guidance from:

- Our 3 local safeguarding partners (WCC, Redditch clinical commissioning group, West Mercia Police.
- The local authority about children with education, health and care (EHC) plans, the local authority designated officer and children's social care, reporting mechanisms, referral thresholds and children in need

The following guidance is currently in place:

## 6. Monitoring attendance

We will resume taking our attendance register. We will also continue to submit the Department for Education's daily online attendance form, until no longer asked to do so.

Where any child we expect to attend school doesn't attend, or stops attending, we will:

- Follow up on their absence with their parents or carers, by telephone, home visits, referrals to Worcestershire Childrens First.
- Notify their social worker, where they have one

We will make arrangements with parents and carers to make sure we have up-to-date emergency contact details, and additional contact details where possible. This information will be communicated via text, email and on our social media.

## 7. Peer-on-peer abuse

We will continue to follow the principles set out in part 5 of Keeping Children Safe in Education when managing reports and supporting victims of peer-on-peer abuse.

Staff should continue to act on any concerns they have immediately – about both children attending school and those at home.

Parents can contact the DSL/Head of Pastoral/Members of the pastoral team with concerns by using the school telephone or the pastoral email [pastoral@sta.lourdesmac.org.uk](mailto:pastoral@sta.lourdesmac.org.uk).

Students who have experienced abuse will be supported with regularly welfare checks, the frequency of which can be discussed with parents.

## 8. Concerns about a staff member or volunteer

We will continue to follow the principles set out in part 4 of Keeping Children Safe in Education.

Staff should continue to act on any concerns they have immediately – whether those concerns are about staff/volunteers working on site or remotely.

Where there is a concern raised, the LADO will be contacted for advice.

We will continue to refer adults who have harmed or pose a risk of harm to a child or vulnerable adult to the Disclosure and Barring Service (DBS).

We will continue to refer potential cases of teacher misconduct to the Teaching Regulation Agency. We will do this using the email address [Misconduct.Teacher@education.gov.uk](mailto:Misconduct.Teacher@education.gov.uk) for the duration of the COVID-19 period, in line with government guidance.

## 9. Contact plans

We have contact plans for children with a social worker, and other children who we have safeguarding concerns about, for circumstances where:

- They won't be attending school (for example where the school, parent/carer and social worker, if relevant, have decided together that this wouldn't be in the child's best interests); or
- They would usually attend but have to self-isolate
- How often the school will make contact – this will be at least once a week
- Which staff member(s) will make contact – as far as possible, this will be staff who know the family well

- How staff will make contact – this will be over the phone, doorstep visits, or a combination of both

We have agreed these plans with children’s social care where relevant, and will review them within the pastoral team weekly.

If we can’t make contact, we will conduct home visits, refer to the Family Front Door and/or refer to the police.

## **10. Safeguarding all children**

Staff and volunteers are aware that this difficult time potentially puts all children at greater risk.

Staff and volunteers will continue to be alert to any signs of abuse, or effects on pupils’ mental health that are also safeguarding concerns, and act on concerns immediately in line with the procedures set out in section 3 above.

### **10.1 Children returning to school**

The DSL (or deputy) will do all they reasonably can to find out from parents and carers whether there have been any changes regarding welfare, health and wellbeing that they should be aware of before the child returns.

Staff and volunteers will be alert to any new safeguarding concerns as they see pupils in person.

### **10.2 Children at home**

The school will maintain contact with children who are not yet returning to school. Staff will try to speak directly to children at home to help identify any concerns. They will use school phones and devices to make calls home. Or, if necessary they will use personal phones but they will withhold their personal number.

Staff and volunteers will look out for signs like:

- Not completing assigned work or logging on to school systems
- No contact from children or families
- Seeming more withdrawn during any class check-ins or video calls

## **11. Online safety**

### **11.1 In school**

We will continue to have appropriate filtering and monitoring systems in place in school.

Staff will be trained in the use of SENSO for students who are working on site. Concerns can also be raised using Microsoft Teams, MyConcerns, school email and the school telephone.

### **11.2 Outside school**

Where staff are interacting with children online, they will continue to follow our existing staff code of conduct/IT acceptable use policy.

Staff will continue to be alert to signs that a child may be at risk of harm online, and act on any concerns immediately, following our reporting procedures as set out in section 3 of this addendum.

We will make sure children know how to report any concerns they have back to our school, and signpost them to other sources of support too.

### 11.3 Working with parents and carers

We will make sure parents and carers:

- Are aware of the potential risks to children online and the importance of staying safe online
- Know what our school is asking children to do online, including what sites they will be using and who they will be interacting with from our school
- Are aware that they should only use reputable online companies or tutors if they wish to supplement the remote teaching and resources our school provides
- Know where else they can go for support to keep their children safe online.

## 12. Mental health

### 12.1 Children returning to school

Staff and volunteers will be aware of the possible effects that this period may have had on pupils' mental health. They will look out for behavioural signs, including pupils being fearful, withdrawn, aggressive, oppositional or excessively clingy, to help identify where support may be needed.

### 12.2 Children at home

Where possible, we will continue to offer our current support for pupil mental health for all pupils.

We will also signpost all pupils, parents/carers and staff to other resources to support good mental health at this time.

When setting expectations for pupils learning remotely and not attending school, teachers will bear in mind the potential impact of the current situation on both children's and adults' mental health.

## 13. Staff recruitment

### 13.1 Recruiting new staff and volunteers

We continue to recognise the importance of robust safer recruitment procedures, so that adults and volunteers who work in our school are safe to work with children.

We will continue to follow our safer recruitment procedures, and part 3 of Keeping Children Safe in Education.

In urgent cases, when validating proof of identity documents to apply for a DBS check, we will initially accept verification of scanned documents via online video link, rather than being in physical possession of the original documents. This approach is in line with revised guidance from the [DBS](#). New staff must still present the original documents when they first attend work at our school.

Similarly, temporary measures allow right to work checks to be carried out by verifying scanned documents on a video call. If we need to take this approach, we will follow [Home Office and Immigration Enforcement guidance](#).

We will continue to do our usual checks on new volunteers, and do risk assessments to decide whether volunteers who aren't in regulated activity should have an enhanced DBS check, in accordance with paragraphs 167-172 of Keeping Children Safe in Education.

### 13.2 Staff 'on loan' from other schools

We will assess the risks of staff 'on loan' working in our school, and seek assurance from the 'loaning' school that staff have had the appropriate checks. This will be conducted with e

We will also use the DBS Update Service, where these staff have signed up to it, to check for any new information.

#### 14. Safeguarding induction and training

We will make sure staff and volunteers are aware of changes to our procedures and local arrangements.

##### 14.1 New and 'on loan' staff induction

New staff and volunteers will continue to receive:

- A safeguarding induction
- A copy of our children protection policy (and this addendum)
- Keeping Children Safe in Education part 1

We will decide on a case-by-case basis what level of safeguarding induction staff 'on loan' need. In most cases, this will be:

- A copy of our child protection policy and this addendum
- Confirmation of local processes
- Confirmation of DSL arrangements

##### 14.2 DSL training

The DSL (and deputy) may not be able to take part in training during this period. If this is the case, the DSL (and deputy) will continue to be classed as a trained DSL (or deputy) even if they miss their refresher training.

The DSL (and deputy) will do what they reasonably can to keep up to date with safeguarding developments, such as via safeguarding partners, newsletters and professional advice groups.

#### 15. Keeping records of who's on site

We will keep a record of which staff and volunteers are on site each day, and that appropriate checks have been carried out for them.

We will continue to keep our single central record up to date.

We will use the single central record to log:

- Everyone working or volunteering in our school each day, including staff 'on loan'
- Details of any risk assessments carried out on staff and volunteers on loan from elsewhere

#### 16. Children attending other settings

Where children are temporarily required to attend another setting, we will make sure the receiving school is provided with any relevant welfare and child protection information.

Wherever possible, our DSL (or deputy) and/or special educational needs co-ordinator (SENCO) will share, as applicable:

- The reason(s) why the child is considered vulnerable and any arrangements in place to support them
- The child's EHC plan, child in need plan, child protection plan or personal education plan
- Details of the child's social worker

- Details of the virtual school head

Where the DSL, deputy or SENCO can't share this information, the senior leader(s) identified in section 4 will do this.

We will share this information before the child arrives as far as is possible, and otherwise as soon as possible afterwards.

### **17. Monitoring arrangements**

This policy will be reviewed as guidance from the 3 local safeguarding partners, the LA or Department for Education is updated, and at each phased of adapting/expanding the phased return of schools. At every review, it will be approved by the full governing board.

### **18. Links with other policies**

This policy links to the following policies and procedures:

- Child protection policy
- Staff code of conduct
- IT acceptable use policy
- Health and safety policy
- Online safety policy
