

ST AUGUSTINE'S CATHOLIC HIGH SCHOOL AND SIXTH FORM

DEVELOPING THE WHOLE PERSON

13th August 2020

Success at St Augustine's Catholic High School and Sixth Form

Today we celebrate the tremendous achievements that our students have made during their whole school journey to reach the destinations of their choice. This has been a joint collaboration between students, their families and their schools. Although the taught curriculum ceased at the end of March due to the lockdown, the pastoral support and academic rigor provided by St Augustine's continued unabated and this has allowed the students to remain positive amidst the uncertainty over the last few months.

- Of our cohort of 99 students, 83 have a confirmed University place and 16 have gained a higher level apprenticeship position or employment. A third of students will be attending Russell Group universities. 50% of students obtained their first choice of University.
- The most popular University choice was Nottingham, but some others to mention are Oxford, Durham, York, Birmingham, Warwick and Liverpool.
- Individual success stories include Alexander Young for securing a place at Mansfield College Oxford, Joseph Walsh for starting his apprenticeship at RSM Accountancy and Rhiannon Finn reading Mechanical Engineering at Sheffield University.

Mr O'Connor commented, "We are immensely proud of our students, not just of the extremely high calibre destinations that they will be studying at, but also the life skills that they have learnt throughout the process – aspiration, teamwork and resilience. Despite the uncertain times, they are now in an excellent position to look forward and focus upon the next stage of their future. An enormous thank you must go out to our whole school community, to the specialist teaching staff who inspired them, the pastoral team who skilfully guided them at times of need and to parents and carers for their unrelenting support. The ethos of Saint Augustine's ensures that all of our students leave school having reached their full academic and personal potential."
